

FOOD PROCESSING AND FOOD CONTACT ITEMS:

To sanitize previously cleaned food processing and food contact items, prepare a sanitizing solution by diluting 4 ounces of Crouch Slash to 5 gallons of water. This sanitizing solution contains 200 parts per million active quaternaries. Apply sanitizing solution to the article to be sanitized using a wet cloth, wet mop, or wet sponge. Apply solution liberally. Articles to be sanitized may also be sanitized by immersing in a sanitizing solution for 30 seconds. All sanitized articles should be allowed to drain dry before using. At the recommended sanitizing solution level of 200 parts per million active quaternaries, no potable water rinse is required.

USE DIRECTIONS:

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing. If a pseudomonicidal product is required, then use at 3 ounces per gallon.

For heavy soil, a precleaning step is recommended before using Crouch SLASH.

For best results use Crouch SLASH with a cloth or mop and apply to walls, floors and other hard surfaces.

CROUCH SLASH

**CLEANER
DEODORANT**

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈)

dimethyl benzyl ammonium chlroides

1.6%

n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl

ethylbenzyl ammonium chlorides

1.6%

Sodium Carbonate

3.0%

Tetrasodium ethylenediamine tetraacetate

1.0%

INERT INGREDIENTS:

92.8%

100%

**DISINFECTANT
FUNGICIDE**

Crouch SLASH is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors, and any inanimate hard surfaces. When used as directed, Crouch SLASH will also deodorize those areas which generally are hard to keep fresh smelling, such as Garbage Pails, Sink Tops and Bathroom areas which are prone to odors caused by the growth of some microorganisms. Effective against Staphylococcus aureus and Salmonella choleraesuis at 2 ounces per gallon. Also effective against pathogenic fungi, Trichophyton interdigitale, at 2 ounces per gallon.

At 3 ounces per gallon, Crouch SLASH is effective against Pseudomonas aeruginosa.

PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. aureus	20
S. typhosa	13

WARNING

Keep Out of Reach of Children. Causes eye and skin irritation. Do not use on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

IF SWALLOWED: Immediately flush eyes or mouth with water for at least 15 minutes. If swallowed, drink water. If you are pregnant, call your doctor. If you are lactating, call your doctor. If you are nursing, call your doctor. If you are pregnant, call your doctor. If you are lactating, call your doctor. If you are nursing, call your doctor. If you are pregnant, call your doctor.
