DIRECTIONS

FLIES, MOSQUITOES, WASPS, GNATS: Close doors and windows. Pointing nozzle upward, direct the Aerosol spray to all parts of the room, especially windows and other light sources which attract these insects 2 to 4 seconds application per 1,000 cubic feet space is usually sufficient To prevent staining, hold nozzle at least 3 feet from fabrics. Keep room closed 15 minutes after each treatment

ROACHES, ANTS, SILVER-FISH: Aim the spray toward flooring, all cracks, crevices, runways and places of refuge. Hit as many insects as possible with the spray, Heavy treat ment is recommended. Repeat until the infestation is under control. Continue at intervals of one to two weeks to prevent reinfestation.
