

GENERAL INFORMATION

A liquid weed killer. To be applied undiluted as a spray on non-cropland areas where bare ground is desired. The degree of weed control and duration of effect will vary with the amount of chemical applied, soil type, rainfall and other conditions.

DIRECTIONS: Apply any time of year except when the ground is frozen. Best results are obtained after predominant species are well established in the late spring or early summer. Before treating, calibrate equipment to insure uniform cover of the area to be treated. Measure out the proper amount and apply.

EQUIPMENT: Power sprayers, compressed air hand sprayers, knapsack sprayers or an ordinary sprinkler can be used to apply. No dilution or agitation is required.

GENERAL WEED CONTROL: To control most weeds for an extended period of time on non-cropland areas such as parking lots, fence rows, loading ramps, railroad sidings, storage yards, around buildings and industrial plant sites, apply 2 to 5 gallons per 1,000 sq. ft. treated (80 to 200 gallons per acre).

To control annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, broomsedge, ragweed, lambquarter, and turkey mullein, apply 1 to 2 gallons per 1,000 sq. ft. (40 to 80 gallons per acre).

For other **HARD TO KILL** perennial weeds and grasses such as Johnsongrass, saltgrass, bouncing bet, bracken fern and horsetail, apply 3 to 5 gallons per 1,000 sq. ft. (120 to 200 gallons per acre).

To control perennial weeds and grasses, such as smooth brome, Canada bluegrass, purpletop, quackgrass, broomsedge, aster, dandelion, dog gennel, goldenrod, plaintain and wild carrot, apply 2 to 4 gallons per 1,000 sq. ft. (80 to 160 gallons per acre).

Do not apply to areas underlaid by roots of desirable trees and shrubs.

BROMA WEED KILLER

5-70-71-24
3837-24
KILLS MOST VEGETATION

WEEDS CAN BE KILLED QUICKLY

“CAUTION”

"Keep Out of Reach of Children"
See Side Panel for Required Cautions

ACTIVE INGREDIENTS

98.69%

Petroleum Oil
2, 4-Dichlorophenoxyacetic acid, isooctyl ester*
Pentachlorophenol
Bromacil (5-bromo-3-sec-butyl-6-methyluracil)
Other chlorophenols

INERT INGREDIENT: Water

1.31%

*2, 4-Dichlorophenoxyacetic acid equivalent 0.70%

USDA Registration No. 3837-24

Manufactured by:

LUBAR COMPANY

1708 Campbell Street

Kansas City, Missouri 64108

CAUTION

Do not apply liquid directly to, or otherwise permit it to come into contact with susceptible plants, such as vegetables, flowers, fruit trees, ornamentals, cotton, grapes, or other desirable plants and do not permit spray mists containing it to drift onto them. (Course sprays are less likely to drift.) Vapors from this product may injure susceptible plants in the immediate vicinity. Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same spray equipment for other purposes). Do not store near fertilizers, seeds, insecticides, or fungicides. Do not contaminate waters used for irrigation or domestic purposes. Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes.

CAUTION: Harmful if swallowed or absorbed through skin! Causes skin irritations! Do not breathe vapor or spray mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling. In case of contact, wash skin with soap and water; for eyes, immediately flush with large amounts of water for at least 15 minutes and get medical attention. Remove and wash contaminated clothing before reuse.
