## DIRECTIONS FOR USE

**FLIES AND MOSQUITOES:** The surface deposit of a mixture of 1 gallon of Meth-O-Sect with 20 gallons of water or fuel oil will aid in the control of flies and mosquitoes. Thoroughly wet the surfaces where flies breed or alight, such as garbage dumps, refuse heaps, outside of barns and buildings. For mosquito spray undergrowth near stagnant water, low dump areas and refuse dumps where water is trapped in tin cans, discarded tires and other things of this type. Repeat when necessary.

## FOR PROFESSIONAL USE ONLY

Meth-O-Sect is a product for use by experienced personnel to aid in the control of flies and mosquitoes which have developed resistance to chlorinated insecticides such as DDT and Chlordane.

## CAUTION

Do not reuse container. Destroy by crushing and burying in a safe place. Do not burn. Bury spray wastes away from domestic water supplies and irrigation waters.

For professional use only.
