

QUAT RINSE

spray at 3 RPM. 5. Fill sprayer reservoir with 1.5 oz. of concentrate to 1 gallon of water to produce 1150 ppm active ingredients. 6. Set sprayer mechanism to deliver 1 gallon of solution. 7. Fog for 15 minutes for an average 2100 cu. ft. room. For different room sizes, vary spray time proportionately to ensure complete wetting of exposed surfaces. 8. Wait 2 hours before entering room after treatment (then manually disinfect room surfaces according to recommended procedures). 9. Wipe logging equipment thoroughly with clear water following use.

COLD DISINFECTION: For disinfection of previously cleaned surgical instrument, barbed tools and dental equipment, simply submerge instruments into solution containing 1-1/2 ounces per gallon of water for 10 minutes. Prepare a fresh solution daily or when used solution becomes visibly dirty.

PRECAUTIONARY STATEMENTS
Hazard to Human and Domestic Animals
DANGER

Keep out of Reach of Children. Causes severe eye and skin damage. Do not get in eyes, skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 min. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
