Subject: Acid Free Restroom Cleaner
EPA Registration No. 3838-46
Amendment Dated: May 28, 2003
EPA Received Date: June 13, 2003

Dear Ms Kimberly Johnson,

The following amendment submitted in connection with registration under section 3(c)(7)(a) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended, is acceptable with the following conditions.

Proposed Amendment

- Response to PR Notice 2001-1

Conditions

Revise label as follows:

1. Antimicrobial pesticides used on hard surfaces labeling must bear the identification of the types of surfaces, intended for treatment(e.g. floors, walls, bathroom fixtures, surgical instruments), in addition to any description of the surface composition (e.g. glazed ceramic tile, stainless steel, chrome, vinyl).
2. The nonclemature has been updated for Trichyton interdigitale you will need to state *Trichophyton mentagrophtes*.

CONCURRENCES

SYMBOL	SURNAME	DATE					
75106	A Peters	9/8/03					

3. Precautionary Statement should read: Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield, protective clothing, and rubber gloves. Harmful if swallowed. Wash thoroughly with soap and water before reuse. Remove contaminated clothing wash before reuse.
4. Revise the Storage heading to state: **PESTICIDE STORAGE**

General Comments

A stamped label is enclosed for your records. Please submit three (3) copies of your final printed label before distributing or selling the product bearing the revised labeling. If the above conditions are not compiled with, the registration will be subject to cancellation in accordance with FIFRA section (e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

Sincerely,

Velma Noble
Product Manager (31)

INSTRUCTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not only helps control the spread of virus-contaminated feces from treated surfaces on hand, non-porous, non-metallic surfaces but also kills many microorganisms that cause odor. Recommended for disinfecting public restrooms, non-porous, non-metallic surfaces. For use in schools, colleges, office buildings and airports.

FOR DISINFECTING: Apply by mop, squeegee, cloth or spray on hard, non-porous surfaces for a minimum contact time of ten minutes in a single application. For disinfecting, remove gross food particles and heavy oil deposits, then thoroughly wet surfaces. Ready to use solutions may be used even and discarded. Rinsing is not necessary on these surfaces which are to be reused or polished. Not only helps control the spread of virus-contaminated feces from treated surfaces on hard, non-porous environmental surfaces, but also kills many microorganisms that cause odor. Kills *Staphylococcus pyogenes*, *Salmonella enteritidis*, *Pseudomonas aeruginosa*, *Staphylococcus aureus* and *Escherichia coli* (E. coli) and other germs. This sprayable granule dry is a granule.

FOR RESTROOMS: Great for cleaning and disinfecting basins, tubs and tiles. Leaves everything bright and clean. Others disappear instantly. Use where odors are a problem.

TO CLEAN AND DISINFECT TOILET BOWLS: Remove or wipe over the inner ring residual hand water prior to applying this solution. Use 4 ounces of granule in toilet bowl. Squirt around bowl and under rim. Then scrub thoroughly with brush. This product, when used as directed, will not harm white or colored bowls or lavatories, hand surfaces. Clean up on container after use. For animals add 4 ounces of granule. These scrub thoroughly with brush for a contact time of ten minutes.

INDEPENDENT INSTRUCTIONS: We absolutely inhibit the growth of mold and mildew; plus the odors caused by them, when applied to hard, non-porous surfaces such as walls, floors, and table tops. Apply solution by spraying mopping over to wet all surfaces completely. Let sit dry. Repeat application weekly or when growth reappears.

THE EPA (EPA) as a product of environmental disinfectants previously listed with identification fields in health care or other settings in which there is an expected likelihood of contact with individuals with blood or body fluids, and in which the disinfectants likely to be used with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV) (as mandated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DISINFECTING SURFACES AGAINST HIV-1 (HIV) (HIV) OF SURFACES WITH BLOOD OR BODY FLUIDS: Surfaces (such as vinyl gloves, gowns, face masks, or eye coverings) as appropriate, and be sure during all cleaning of body fluids, blood and contamination procedures. **CLEANING PROCEDURES:** Blood and body fluids must be thoroughly cleaned from surfaces and objects before application of disinfectant.

CHEMICAL NAME: Bleach solution (5.25% sodium hypochlorite) on hand non-porous surfaces in the presence of a moderate amount of organic soil (10% blood serum) providing 1000 ppm of active quaternary for a contact time of 5 minutes at room temperature (70-75°F), then a ten (10) minute contact time for disinfection against all other bacteria, fungi, and viruses (except blood on tubing). **WARRANTY:** Blood and other body fluids should be removed and disposed of according to federal, state and local regulations for infectious waste disposal.

Net Contents One Quart (946 mL)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
KEEP OUT OF REACH OF CHILDREN. CAUTION. Irritation if swallowed. May cause skin and eye irritation. Avoid contamination of food. Do not get in eyes. Avoid contact with skin and clothing. Wash thoroughly with soap and water after handling.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF BREATHING: Remove person to fresh air. If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

HAZARD TO AQUATIC LIFE: Irritation to fish. Do not apply directly to water, to a stream, or to other aquatic environments. Do not apply to areas where fish, shellfish, or other aquatic life exist. Do not use near water.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

SPILLAGE DISPOSAL: Products which are easily biodegradable, improper disposal of excess pesticide, spray additive, or tank is a violation of Federal Law. If these wastes can not be disposed by one of the methods listed above, contact your State Pesticide or Environmental Control Agency or the nearest State representative of the national EPA Regional Office for guidance.

GENERAL: Consult federal, state or local disposal authorities for approved alternative procedures, such as sealed open burning.
