Directions

Kennel Comfort Tick Killer should be diluted 12 to 1 when used as an overall spray or sponge application, wetting thoroughly enough to work well into the base of the coat - Ticks will usually drop off in a short period of time - If the tick fails to drop off after treatment, use a dropper and drop undiluted Tick Killer directly upon the tick. Do not allow undiluted Tick Killer reach the Dog's skin.

Do not repeat overall treatment more than once each ~~two~~ 2 weeks.

To help control reinfection spray the Kennel - Home and bedding.

Kennel Comfort Tick Killer is also effective for fleas, lice, and mites when diluted and applied as above.

CAUTION

Wash hands with soap and ~~water~~ warm water after using - avoid ~~in~~ inhalation - avoid contamination of feed and foodstuffs - Keep out of reach of children.
