Subject: Label Notification(s) for Pesticide Registration Notices 2007-4

Dear Ms. Inman:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 2007-4 dated November 4, 2008 for:

EPA Registration #3862-105 Insecticide 300
EPA Registration #3862-4 Space Spray No. 3

The Registration Division (RD) has conducted a review of this request for applicability under PR Notices 2007-4 and finds that the label changes requested falls within the scope of PR Notices 2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please call me directly at 703-305-6249 or Nicole Williams of my staff at 703-308-5551.

Sincerely,

Linda Arrington

Do not wet the animal's skin. After application, brush the coat to give overall coverage. Make sure that legs and ankles are treated. For face area treat as a wipe on application.

TO WIPE ON: Rub the animal down and remove dirt. Pour a small amount (1 ounce) into a soft cloth and wipe on against the hair grain. Make sure to treat legs, belly, the neck and facial areas as well as the back line. Do not wet skin. After this application, brush the coat to bring out a bright sheen. Repeat as needed to kill and repel biting flies. During fly time best protection will be given by treating animals 3 to 4 times each week.
