

**PURPOSES**

Pine Oil Disinfectant is especially prepared for disinfecting and cleaning purposes in industrial buildings, schoolhouses, churches, theatres, restaurants, hotels, railway cars, steamships, clubs and private dwellings.

**DILUTION**

For disinfectant and cleaning purposes, use 100 parts of water to one part of the disinfectant. When preparing the solution, pour the disinfectant into the receptacle first, then add water and stir well. Luke-warm water gives the best results. Never use boiling water.

**CAUTION**

Harmful if swallowed.

If swallowed, give raw egg white, milk, gruel, or cornstarch paste. Call a physician immediately.
