CHERRY-O-DIS 19-30

JSE DIRECTIONS

Use at 2 bundes per gallen, This productivill provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathagenic fungi and deodorizing.

For best results use CHERRY O-DIS 19:30 with a cloth or mop and apply to walls, floors, table tops, counters and garbage pails.

For use in hospitals, 3 dences per dillon-will be required for disinfection against Pseudomonas aeruginosa.

For heavy soil, a pre-cleaning step is recommended before using CHERRY-O-DIS 19-30.

Sanitization

When used for sanitization of previously cleaned food processing or food contact items, limit the level of active quaternaries to 200 ppm (4 ounces per 5 gallons of water) and submerse article in sanitizing solution or apply sanitizing solution with cloth or sponge. After using this compound, sanitized food surfaces must be thoroughly rinsed with potable water.

PHENOL COEFFICIENTS:
