OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Mr. Michael Rekhelman ABC Compounding Co., Inc. P.O. Box 16247 Atlanta, GA 30321-0247

Dear Mr. Rekhelman:

Subject: Super Weed Killer Concentrate EPA Registration Number 3862-91 Application Dated 6/19/03

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended is acceptable, provided you make the following changes before you release the product for shipment.

1. Change the order of the Precautionary statements and First Aid statements to match each other and organize them so that the most severe routes of exposure as demonstrated by toxicity category classification are listed first.

2. Change the title "Storage" to "Pesticide Storage" in the STORAGE AND DISPOSAL section.

3. Change the warranty statement wording. By providing this label, you must take responsibility for the fitness of the product when used in accordance with the label directions.

Submit three (3) copies of final printed labeling incorporating the above changes before you release the product for shipment. Amended labeling will supercede all previously accepted ones. A stamped copy of labeling is enclosed for your records.

Sincerely, Tompkins, hai Product Manager 25

if swallowed	 Call a poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by the poison control center or doctor Do not give anything by mouth to an unconscious person.
tf on skin or clothing	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes Gall a poison control center or doctor for treatment advice.
lf in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
li inhaled	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, il possible. Call a poison control center or doctor for further treatment advice.
Have the pro	Call a poison control center or doctor for further treatment advice. duct container or label with you when calling a poison control center or doctor, or going to

NOTE TO PHYSICIAN- Contains petroleum distillate - vomiting may cause aspiration pneumonia.

Environmental Hazards Do not use on slopes or in areas where runoff is likely to occur (apply only to level surfaces). Do not contaminate water used for irritation or domestic purposes. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. Apply this product only as specified on this label. Physical or Chemical Hazards Do not use, pour, spill, or store near heat or open flame.

GENERAL INFORMATION

For total weed control on certain areas around the business or workplace where no plant growth is desired, use as specified in label directions.

Controls bindweed, common mullein, and other hard-to-kill weeds.

Prevents plant growth for up to one year.

This weed killer concentrate is a nonselective product intended for use after dilution with water, or an appropriate oil, or other approved carrier. For best results, apply to bare ground or when weed growth is just starting. Weeds taller than 4-6 inches should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep-rooted perennial weeds. Use for bare ground vegetation control in driveways, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings, and under graveled pathways where plant growth has come through these surfaces.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For control of annual and susceptible perennial weeds such as downy bromegrass, oatgrass, goosegrass, quackgrass, puncturevine, coldenrod, and plaintain. To cover 100 sc. ft., add 10 - 16 fl. oz. by use of a sprinkling can or other watering or spraying device in sufficient water to get good coverage of the area (e.g., 2 1/2 gals. in sprinkling can). For control of hard-to-kill perennial broadleaf and grass weeds such as bindweed and johnsongrass as well as the blennials common mullein and wild carrot, use 1 1/3 to 1.8 ats. in sufficient water to get good coverage. Different grades of mineral oil, diesel fuel, petroleum-based-oil, fuel oil, or kerosene may be substituted for water.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal STORAGE: Store at temperatures above 32 deg. F. Do not use or store near heat or open flame. Keep container closed when not in use. PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance, CONTAINER DISPOSAL: METAL CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a senitary landfill, or by other procedures approved by state and local authorities. PLASTIC CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

When using a sprinkling can, triple rinse and pour rinsate on area treated once application is completed. Mix only the quantity needed and use immediately. To minimize lateral movement, sprinkle lightly with a watering can or similar sprinkler device immediately after application.

PRECAUTIONS: (1) Apply when air is calm to avoid the possibility of drift onto desirable plants or grass. (2) Keep away from the roots of desirable plants and trees. (3) Use only in areas where complete control of vegetation is desired. (4) THIS WEED KILLER CONCENTRATE SHOULD NOT BE USED ON CULTIVATED AREAS, ON GROUND THAT IS TO BE CULTIVATED, IN GREENHOUSES, OR NEAR THE DRIP LINE OF TREES OR SHRUBS. (5) Do not use on slopes or in areas where runoff is likely to occur (apply only to level surfaces). (6) Avoid using where adjacent desirable trees, shrubs, or plants may be injured from leaching of the chemical through the soil. (7) Keep children and animals off treated areas until these areas are 5,305m dry.
