OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

FE**B** 6 2009

Ms Kim Inman ABC Compounding Co, Inc. PO BOX 16247 Atlanta, GA 30321

Subject: Label Notification(s) for Pesticide Registration Notice 2007-1

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-1 dated December 3, 2008 for:

EPA Registration 3862-134 Metered Insecticide

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-1 and finds that the label change(s) requested falls within the scope of PRN-2007-1. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

Linda Arrington

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling, READ ENTIRE LABEL BEFORE

FOR USE IN AUTOMATIC DISPENSERS: Install at a distance of seven (7) feet from the floor and where air currents wifl carry spray throughout room. One dispensing unit should be installed for each 6,000 cubic feet of space to be treated. Set the dispenser to activate the 54 mg, valve once every 15 minutes. Usually the effectiveness will be noticeable within one hour after the dispenser is activated. Keep in mind that such factors as air flow rate, size of space treated, humidity and room temperatures all affect insect activity and control. As with any method of insect control, best results are achieved when sanitation and other positive insect prevention practices are followed. This 6 1/2 oz. can of insect killer contains approximately 3,400 "shots" sufficient to sustain operation for a total of 850 hours (35 days on around-theclock basis).

STORAGE AND DISPOSAL

STORAGE: Store in a cool area away from heat or open flame. **DISPOSAL:** Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. 8463010FA_0901
