slime-trol[®]

SLIME CONTROL AGENT

FORMULA

WARNING — TOXIC — HARM

be absorbed by skin. Causes skin irritation on skin or clothing. Wear rubber gloves, and gloves when handling. In case of contact with skin, wash with water. In case of contact with eyes, flush promptly with water. In case of ingestion or contact with water, seek medical attention.

This product is toxic to fish and wildlife. Do not discharge where it will drain into lakes, streams, or other surface waters. Do not contaminate water by cleaning of wastes. Apply the product only as directed. Do not reuse empty container. Send to drum by perforating or crushing and bury in a safe place.

DIRECTIONS FOR USE — B

bacteriological slime growth-control agent for pulp mill process systems.

Betz Slime-Trol RX-15 should be added to the process at the rate of 0.5-2.0 pounds, or 0.015-0.020 pounds per dry paper or pulp produced. Addition may be made to the beater chest, Jordan headbox or chest, or to the water system. The product may be fed continuously by a proportioning pump, by drip-feed apparatus, or by drum. The rate of feed is dependent upon the severity of the microbial problem.

FOR INDUSTRIAL USE ONLY. Technical data on microbial problems is available from BETZ.

BETZ LABO

FORMULA

RX-15

WARNING — TOXIC—HARMFUL IF SWALLOWED. May be absorbed by skin. Causes skin irritations. Do not get into eyes, on skin or clothing. Wear rubber gloves, and goggles or face shield, when handling. In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. In case of ingestion or contact with eyes, secure immediate medical attention.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds, streams, or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply the product only as specified on this label. Do not reuse empty container. Send to drum reconditioner, or destroy by perforating or crushing and bury in a safe place.

DIRECTIONS FOR USE —Betz Slime-Trol RX-15 is a bacteriological slime growth-control agent for use in paper and paper pulp mill process systems.

Betz Slime-Trol RX-15 should be added to the wet paper or pulp stock at the rate of 0.5-2.0 pounds, or 0.015-0.06 quart, per short ton of dry paper or pulp produced. Addition may be made to the beater, beater chest, Jordan headbox or chest, machine chest, or the white water system. The product may be fed continuously or intermittently by a proportioning pump, by drip-feed apparatus or directly from the drum. The rate of feed is dependent upon the type of system and the severity of the microbial problem.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ.
