FORMULA

F-14

WARNING—MAY BE FATAL IF SWALLOWED. Causes skin irritation. Do not get into eyes, on skin or clothing. Do not inhale vapor. Wear rubber gloves when handling. In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. In case of ingestion or contact with eyes, secure prompt medical attention.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds, streams, or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply the product only as specified on this label. Do not reuse empty container. Send to drum reconditioner, or destroy by perforating or crushing and bury in a safe place.

DIRECTIONS FOR USE—Betz Fungicide F-14 aids in the control of microorganisms responsible for fungus attack of cooling tower wood.

This product should be added to the cooling tower sump of a cooling tower system in an amount between 1.0 and 1.67 pounds per thousand gallons of water contained in the system so as to develop a concentration of 120-200 parts per million in the circulating water. The material may also be applied directly to the surface of the wood, either in its concentrated or diluted form, with a pneumatic spray. The frequency of application depends on the type of system and the severity of the problem.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ.

KEEP CONTAINER COVERED—PROTECT FROM FREEZING
