## SLIME CONTROL AGENT

ACCEPTED  
August 8, 1973  
THE FEDERAL BUREAU OF INVESTIGATION  
AND POLICE DEPARTMENT  
DUNCAN HARRISON  
10-15-73

### WARNING—TOXIC

HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN. Causes eye burns and skin irritations. Avoid breathing vapor or mist. Use with adequate ventilation. Do not get into eyes, on skin or clothing. Wear rubber gloves, and goggles or face shield, when handling.

Wash thoroughly after handling. Remove and wash contaminated clothing before reuse.

In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. In case of ingestion or contact with eyes, secure immediate medical attention.

FIRST AID: If swallowed, do not induce vomiting. Drink large quantities of milk, egg whites or water. Call physician immediately.

This product is toxic to fish and wildlife. Treated effluent should not be discharged where it will drain into lakes, ponds, streams, or public waters. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply the product only as specified on this label.

Do not reuse empty container. Send to drum conditioner, or destroy by perforating or crushing and bury in a safe place.

### CAUTION—COMBUSTIBLE

Do not use, pour or store near open flame. Keep away from heat and open flame.

### DESCRIPTION AND USE

Betz Slimicide C-38 aids in the control of objectionable forms of bacteria and fungi in recirculating cooling-tower water equipment.

Begin treatment when the system is in jeopardy of becoming affected or after cleaning systems where efficiency is already impaired. Apply at a point in the system where the product will be uniformly mixed.

When the system is noticeably fouled, apply 0.5 pound (7.5 fluid ounces) of this product per thousand gallons of water in the system. Repeat until control is achieved. When microbial control is evident, add 0.1 to 0.3 pound (1.5 to 4.6 fluid ounces) per thousand gallons of water in the system every day, or as needed to maintain control. In the event the system is badly fouled, precleaning is recommended.

The formulation and its use as a slime-control composition are covered by United States Patent 3,426,134.

FOR INDUSTRIAL USE ONLY. Technical advice regarding specific site problems is available from BETZ.

Contents: LIQUID

#### Active Ingredients

Bis (trichloromethyl)  
sulfone ..... 17.0%  
Methylene bithiocyanate ..... 5.0%

Inert Ingredients\* ..... 78.0%

\*Inert ingredients include solubilizing and dispersing agents.

EPA Reg. No. 3876-90
