

**BETZ®**

# slimicide C-50

## SLIME CONTROL AGENT

ACCEPTED

29 SEP 1976

UNDER THE FEDERAL INSECTICIDE  
FUNGICIDE AND ROBOTICIDE ACT  
FOR ECONOMIC POISON REGISTER  
EPA REG. NO. 3876-119

### DANGER

**CORROSIVE.** Causes eye damage. Do not get into eyes, on skin or on clothing. Wear rubber gloves, and goggles or face shield when handling. **MAY BE HARMFUL IF SWALLOWED**

In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water for 15 minutes. In case of ingestion or contact with eyes, secure immediate medical attention.

**FIRST AID:** If swallowed, induce vomiting by sticking finger down the throat, or by drinking soapy or strong salty water. Repeat until vomit is clear. Call a physician immediately. Never give anything to an unconscious person by mouth.

Remove and wash contaminated clothing before re-use.

### ENVIRONMENTAL HAZARD

Treated effluent should not be discharged where it will drain into lakes, streams or public waters. Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Send to drum reconditioner, or destroy by perforating or crushing and bury in a safe place.

### DIRECTIONS FOR USE

BETZ Slimicide C-50 aids in the control of bacterial slimes in industrial recirculating cooling tower water systems.

Begin treatment when the system is in jeopardy of becoming affected or after cleaning systems when efficiency is already impaired. Apply at a point in the system where the product will be uniformly mixed.

When the system is noticeably fouled, apply 0.75 pound (0.087 gallon) of the product per thousand gallons of water in the system. Repeat until control is achieved. When microbial control is evident, add 0.5 to 0.75 pounds (.06 to .08 gallon) of the product per thousand gallons of water in the system every day, or as needed to maintain control. Severely fouled systems must be cleaned before starting treatment.

The formulation and its use as a slime-control composition are covered by United States Patent 3,839,583.

**FOR INDUSTRIAL USE ONLY.** Technical advice regarding specific site problems is available from BETZ.

#### Contents: LIQUID

#### Active Ingredients

$\beta$ -Bromo  $\beta$ -Nitrostyrene . . . . . 5.0%  
2, 2-dibromo-3-nitrilo-  
propionamide . . . . . 5.0%

Inert Ingredients . . . . . 90.0%

\*Inert ingredients include solubilizing and dispersing agents
