

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

Since weather and other conditions under which this product may be used will vary, the Seller makes no warranty of any kind, express or implied, concerning the use of this product. The user assumes all risks of use or handling not in accordance with directions or suggestions.

CAUTION!

Keep out of reach of children.

Harmful if swallowed. Do not induce vomiting. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water.

Avoid inhalation of spray mist. Avoid contamination of food and feed.

Do not contaminate water used for irrigation or domestic purposes.

Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not reuse container. Destroy when empty.

Do not use, pour, spill or store near heat or open flame. Store at temperatures above 32° F.

"BARREN" VEGETATION KILLER

EPA Reg. No. 4029-30
EPA Est. No. 4029-NY01

For non-selective weed control on non-cropland areas such as parking lots, fence rows, railroad sidings, drainage ditch banks, storage yards, around buildings or industrial sites.

ACTIVE INGREDIENTS	84.64%
Prometon: 2,4-bis (isopropylamino)- 6-methoxy-s-triazine*	3.73%
Petroleum distillate	81.04%
INERT INGREDIENTS	15.23%
TOTAL:	100.00%

DIRECTIONS FOR USE: Uniformly spray one gallon of BARREN VEGETATION KILLER mixed in ten gallons of water over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1½ gallons of BARREN VEGETATION KILLER in ten gallons of water per 1,000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot, use 3-4½ gallons per 1,000 sq. ft. Although BARREN VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the dripline of trees. Avoid spray drift to desirable plant.

Do not reuse empty drum. Return to drum reconditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.
