

dairy barns and herds and milk processing plants. When properly diluted, KATTLE-SECT will kill the exposed stages of Hornflies, Stableflies, Deerflies, Gnats, Mosquitos, Houseflies, Silverfish, Roaches, Ants, and certain other insects associated with animals. When diluted with water as directed, KATTLE-SECT is non-inflammable. Do not use in poultry houses.

DIRECTIONS FOR USE

FOR SPRAYING CATTLE:

STABLEFLIES AND DEERFLIES: Dilute 1 part Certified KATTLE-SECT to 2 parts of water and apply 1 to 3 pints per animal, paying particular attention to legs, flanks, head topline and other body areas commonly attacked by these insects. Repeat treatment every three days or when needed.

HORNFLIES, MOSQUITOS AND GNATS: Dilute 1 part Certified KATTLE-SECT with 10 parts of water and apply 1 to 3 pints per animal with particular attention to flanks, underline, topline, withers, ears, and other infested areas. Repeat treatment weekly or when needed.

FOR SPACE SPRAYING: For the control of flying insects such as houseflies, mosquitos, gnats and flying moths in buildings and enclosures, dilute 1 part of Certified Kattle-Sect with 5 parts of water using the Hercules

PRINTED IN U.S.A.

KATTLE-SECT

CONCENTRATED INSECTICIDE

ACTIVE INGREDIENTS:

Petroleum Distillates
Piperonyl Butoxide Technical*
N-octylbicycloheptenedicarboximide
Pyrethrins

INERT INGREDIENTS, 10%

Polyoxyethylene Sorbitol Mixed Ether Ester

*Consists of (Butylcarbityl) (6-Propylpiperonyl) ether and related compounds.

NOTICE!

KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

FOR DAIRY BARNS: Spray after the cattle are in the barn as directed above. Allow sufficient time for the fog to settle before milking the animals.

FOR CRAWLING INSECTS SUCH AS ROACHES, ANTS, SILVERFISH: Dilute 1 part Certified Kattle-Sect with 2 parts water. Direct the spray in such a manner as to thoroughly treat all places commonly inhabited by these pests such as cracks, crevices, baseboards, around shelves, refrigerators, and bottling equipment and other places that might offer shelter to the insects. Do not spray directly into exposed food products. Control as many insects as possible. Repeat treatment when necessary.

FOR A FEW DAYS LASTING EFFECTIVENESS AGAINST INSECTS SUCH AS HOUSEFLIES AND ROACHES: Dilute 1 part Certified Kattle-Sect with 2 parts water. Apply to walls, floors, ceiling and other places where insects alight or congregate at the rate of 1 gallon to 750 square feet. Use a sprayer that produces a wet spray and thoroughly wet all surfaces. Repeat treatment when necessary.

CAUTION: Harmful if swallowed. Avoid wetting the hides of animals. Do not use or store near heat or open flame.
