

NEW GLY-SAN

DIRECTIONS: As an Air Sanitizer — For Reduction of Airborne Bacteria. Close all windows and doors. Spray New Gly-San so that light fog forms. New Gly-San will reduce the number of airborne bacteria and virus, particularly. This treatment temporarily decontaminates the air. Repeated applications should be made periodically according to conditions that prevail.

DIRECTIONS: As an Air Spray — For deodorizing, spray New Gly-San upwards into the atmosphere, using a good sprayer that will produce aerosol size particles. For removing musty, moldy or dank odors, spray directly on the surfaces to be treated after they have been cleaned. Dampen a cloth with this liquid and use for wiping bathroom fixtures, telephones, door knobs, etc., for excellent deodorizing results.

CAUTION: AVOID CONTAMINATION OF FOOD. IN LIQUID FORM, NEW GLY-SAN IS A COMBUSTIBLE MIXTURE. KEEP CONTAINERS CLOSED WHEN NOT IN USE. HARMFUL IF SWALLOWED.

NOTICE: KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.
