

# ULTRA-K

## DIRECTIONS

Spray, sponge or wipe ULTRA-K on the area to be cleaned. Use on procelain, ceramic and plastic tile, chrome, resilient and ceramic floor tile and washable painted surfaces. Wipe dry with a clean cloth or sponge.

Check for Cleanliness: Soap scum deposits glow under ultra-violet light. The cleaned area can be checked with an ultra-violet light to assure that all soap scum and film is removed. If the area shows a film, repeat the cleaning operation until the surface is free of spots when exposed to ultra-violet light.

**WARNING: HARMFUL IF SWALLOWED.** Causes eye irritation. Do not get in eyes. Avoid skin contact with the concentrate. In case of contact, flush with water. If irritation persists, get medical attention. Avoid contamination of food.

## CLEANER • DISINFECTANT • DEODORANT

ULTRA-K is specially formulated for removing soap scum and film — as well as normal soils from the areas around wash basins, tubs, showers and sinks. Regular use of ULTRA-K keeps these areas clean, sanitary and free of odors.

### ACTIVE INGREDIENTS:

N-alkyl (60% C <sub>14</sub> , 30% C <sub>16</sub> , 5% C <sub>12</sub> , 5% C <sub>18</sub> ) dimethyl benzyl ammonium chloride . . . . .	0.25%
N-alkyl (50% C <sub>12</sub> , 30% C <sub>14</sub> , 17% C <sub>16</sub> , 3% C <sub>18</sub> ) dimethyl ethylbenzyl ammonium chloride . . . . .	0.25%
Tetrasodium ethylenediamine tetraacetate . . . . .	2.34%

INERT INGREDIENTS: . . . . . 97.16%

## DIRECTIONS
