#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

#### GENERAL PRECAUTIONS AND RESTRICTIONS:

Do not apply this product in a way that will contact other persons. Only protected handlers may be in the area during application.

#### GENERAL INFORMATION:

FOR USE IN INDUSTRIAL RECIRCULATION WATER COOLING TOWERS AND AIR WASHERS ANCOCIDE 4010 is a highly effective fungicide. bactericide and algaecide for use in controlling the growth of fungi, bacteria and algae found in industrial recirculating water cooling towers and air washers that maintain effective mist eliminating components

Dosage for industrial recirculating water cooling towers or airwashers will depend on the condition of the system prior to treatment initiation. Systems which are heavily contaminated should be cleaned first.

#### APPLICATION INSTRUCTIONS:

Apply ANCOCIDE 4010 to the cleaned system or when growth is first noticed, according to the following schedule:

Initial Dose: Apply 1 - 2 quarts of product per each 1000 gallons of water in the system. This dose maybe repeated once, twice or three times weekly or as required to control the growth of slime forming organisms. Slug addition should be made in the sump of water cooling towers.

Subsequent Dose: When microbial control is evident add 1 quart of ANCOCIDE 4010 per 1000 gallons of water in the system every three days or as needed.

#### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this product into lakes. streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and their permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA
