(See other cautions on back panel)

Sold by Athens Corporation
4031 Woodhill Drive
Atlanta, Georgia 30341

EPA Reg No 3941-21

FOR CONTROLLING MICE Place tablespoon quantities (1 1/2 to 2 oz) of bait in shallow containers at 6-8 ft intervals. Maintain an uninterrupted supply of bait for at least 15 days. More bait may be needed to gain control than amount contained in this package. Additional bait should be purchased as required.

CAUTION

Treated baits should be placed in locations not accessible to children, pets, wildlife, and domestic animals, or in tamper proof bait boxes. Rinse empty container thoroughly with water and discard it. If swallowed by humans, pets, wildlife or domestic animals this material may reduce the clotting ability of the blood and cause bleeding. In such cases, intravenous and oral administration of Vitamin K combined with blood transfusions are indicated as in the case of hemorrhage caused by overdose of bishydroxycoumarin.

ACTIVE INGREDIENT

Warfarin 3-(alpha-methylbenzyl)-4-hydroxycoumarin
