 REPEGIISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
Echols Mouse & Rat Pellets

41-26
H
P. 192

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Athena Products Corporation
3701 La Reunion Parkway
Dallas, TX 75212

5408 226 674/22
5425499 675/22

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted". This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Submit one copy of the final printed label before releasing the product for shipment with the revised labeling. Registrants of Warfarin products are allowed to sell or distribute products bearing old labeling until September 6, 1993.

EPA Reg. No. 3941-26 Sold By: Athena Products Corp.
 EPA Est. No. 3941-TX-1 3701 La Reunion Parkway
 Dallas, Texas 75212
 NET WT. 5 1/3 OZS.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ THIS LABEL:** Read this entire label and follow all use directions and use precautions. **IMPORTANT:** Do not expose children, pets or other non-target animals to rodenticides.

To help prevent accidents:

1. Store product not in use in a location out of the reach of children and pets.
2. Apply bait in locations out of the reach of children, pets, domestic animals and non-target wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, or other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container and unused, spoiled and unconsumed bait as specified on this label.

USE RESTRICTIONS: For control of Norway rats, roof rats and house mice in and around homes, industrial buildings, and similar man-made structures. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

SELECTION OF TREATMENT AREAS: Determine areas where rats or mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or their signs have been seen. Remove as much alternative food as possible.

APPLICATION DIRECTIONS: RATS: Apply 4 to 16 oz. of product per 100 sq. ft. of placement. Maintain an uninterrupted supply of fresh bait for at least 10 days. The amount of bait in this placement is unlikely to be sufficient to kill more than 2 rats. **MICE:** Apply 1/4 to 1/2 oz. (1-2 level tablespoons) at 8-to-12-foot intervals. Larger placement (up to 16 oz.) may be needed at points of very high mouse activity. Maintain an uninterrupted supply of fresh bait for at least 10 days. **RATS/MICE:** Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals. Leftover bait properly. To prevent reinfestation, eliminate sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish as needed.

STORAGE AND DISPOSAL

STORAGE: Store only in original container, in a location inaccessible to children and pets. **DISPOSAL:** Do not reuse empty container. Rinse container thoroughly. Seal in newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Keep away from humans, domestic animals and birds. If swallowed, this material may reduce the clotting of the blood and cause bleeding. **NOTE TO PHYSICIANS:** If ingested, administer Vitamin K₁ intramuscularly as indicated in bishydroxycoumarin overdoses. Repeat treatment necessary based on monitoring or prothrombin time.

ENVIRONMENTAL HAZARDS

This product is toxic to animals and birds. Do not apply this product to water, swamps, bogs or potholes.
