# PINE ODOR DISINFECTANT

Phenol Fortified  
**CONCENTRATE Coef 10**

For Manufacturing Use Only

To prepare coefficient 5 disinfectant add one volume of water to an equal volume of disinfectant with gentle agitation. Avoid prolonged standing in open container as loss of volatile constituents may result.

Directions for use of the resulting disinfectant should not recommend dilution of greater than 1 part to 20 multiplied by the phenol coefficient for effective disinfectant ie (coef 5:-1 to 20x coef 5-1 to 100).

Active Ingredients: Isopropanol-27.6%, Pine Oil-17.0%; Chloro-2-Phenyl Phenol, Potassium Salt-6.8%, Soap-5.0%. Inert Ingredients: Water (max.) 43.6%.
