 U.S. DEPARTMENT OF AGRICULTURE  
 OFFICE OF THE FEDERAL INSECTICIDE  
 MATERIALS AND RODENTICIDE APPLICATOR  
 DIVISION REGISTERED  
 SUBJECT

**DIRECTIONS**

For outdoor use. Can also be used in attics, warehouses and other storage areas where foods and feedstuffs are not exposed.

For Outdoor Use: Application should be made in late evening when hornets, wasps and yellow jackets are at rest. Hold can upright, remove cap. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under leaves, chimneys, cracks or crevices, etc.

For Indoor Use: Point valve opening away from face. Aim directly at nests of hornets, wasps, or yellow jackets under eaves, etc. Do not spray areas where food and feedstuff are exposed or handled.

Thoroughly saturate nest with spray, contacting as many insects as possible. To prevent insect from falling on skin and clothes, do not stand directly under nest. Best results can be obtained if nest is sprayed in late evening when most insects are at rest. If reinfestation occurs, repeat treatment.

**WARNING**

**KEEP OUT OF REACH OF CHILDREN**

Avoid contamination of food and feedstuff.

**WARNING**

**FLAMMABLE!** Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 120° F. may cause bursting.
