**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

KEEP OUT OF REACH OF CHILDREN.

Combustible Mixture
Contains petroleum distillate.

Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin, or clothing. Avoid breathing vapors or spray mist. Keep children and pets away from treated areas until thoroughly dry.

**STATEMENT OF PRACTICAL TREATMENT
FIRST AID PROCEDURES**

EYES: Rinse eyes for at least 15 minutes with water. Get medical attention if irritation persists.
SKIN: Wash thoroughly with soap and water.
INGESTION: Drink promptly a large amount of milk or water. Do not induce vomiting because of aspiration hazard. Call a physician immediately.
INHALED: Move to fresh air area. Seek medical attention if respiratory distress persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Combustible mixture. Do not use or store near heat or open flame. This product contains petroleum distillate.

DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable State and Federal regulations.

Bare Ground Weed Control around: guard rails, airports, military installations, highway medians, pipelines, railroads, lumberyards, right-of-ways, buildings, storage areas, fences, pumps, machinery, fuel tanks, drainage ditch banks, recreational areas, roadways or similar areas.

Uniformly spray one gallon of PROMETON VEGETATION KILLER mixed in ten gallons of water over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1 1/2 gallons of PROMETON VEGETATION KILLER in ten gallons of water per 1,000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot, use 3-4 1/2 gallons per 1,000 sq. ft. Although PROMETON VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the drip-line of desirable trees. Avoid spray drift to desirable plants.

WARRANTY STATEMENT

Since weather and other conditions under which this product may be used will vary, the Seller makes no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of handling not in accordance with directions or suggestions.

STORAGE & DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited.

STORAGE: Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Do not contaminate feed, foodstuffs or drinking water. Do not store or transport near feed or food. Store at temperatures above 32° F.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Pesticide waste are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities.

NET CONTENTS U.S. GALLON

**PROMETON
VEGETATION KILLER**

A product concentrate to be diluted with water

ACTIVE INGREDIENTS:

Prometon: 2,4-bis (isopropylamino)-6-methoxy-s-triazine 3.73%
Petroleum distillate 81.04%

INERT INGREDIENTS: 15.23%

Total 100.00%

CAUTION

KEEP OUT OF REACH OF CHILDREN

Combustible Mixture

This product contains petroleum distillate.
