GENERAL CLASSIFICATION It is a violation of Federal law to use this product in a manner in-consistent with its labeling.

Bioguard 1000 is used to control algae, bacteria,
and fungi in recirculating commercial and industrial water cooling towers. Prior to
its use, systems must be cleaned to remove algal growth, microbiological slima,
and other deposits. An initial slug addition of 10.1 to 25.25 fluid ounces
of <u>Bioguard 1000</u> per 1000 gallons of water
to provide a concentration of <u>80</u> to <u>200</u> parts per million of <u>Bioguard 1000</u> , based on the total weight of water
in the system, is recommended. Repeat initial dosage until control is evident.
Subsequent slug additions of 2.52 to 25.25 fluid ounces of
Bioguard 1000 per 1000 gallons of water (_20) should
be employed every 2 to 5 days, or as needed. The frequency of addition depends
upon the relative amount of bleedoff and the severity of the microbiological prob-
lem. Slug additions should be made in the sump of water cooling towers. Bloguard 1000 is used to control bacteria in industrial
air-washing systems that maintain effective mist eliminating components. Prior
to its use, systems should be cleaned to remove bacterial slime and other
deposits. An initial slug dose of <u>37.12</u> to <u>62.44</u> fluid ounces of Bioguard 1000
Bioguard 1000 <sup>-</sup> per 1000 gallons of water is recom-
mended. Repeat initial dosage until control is evident. Subsequent slug additions of
per 1000 gallons of water should be employed each 1 to 5 days, or as needed. The
frequency of addition depends upon the relative amount of bleedoff and severity
of the bacterial problem. Slug additions may be made to the sump or to the water
collection trays of the airwash system.
STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Rinsate that cannot be used or reprocessed should be disposed of in a landfill ap- proved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
🗆 METAL CONTAINERS: Triple 🔲 PLASTIC CONTAINERS: Do not
rinse and offer for recycling, reuse empty container. Triple rinse
reconditioning, or disposal in an and incinerate or dispose of in an
approved landfill or bury in a safe approved landfill or bury in safe
place. place
