

DIRECTIONS

In using this product the basic idea is to treat the harbourages and surfaces over which insects crawl or on which they alight. The invisible residue left on the treated surfaces persists for several weeks or more and kills insects which come in contact with it.

ROACHES

Thoroughly spray hiding and nesting places such as cracks and crevices in walls, around door frames, baseboards, behind and under refrigerators. Repeat treatment as required.

ANTS

Apply to the ant trails and the surfaces where ants are seen. Treat any cracks or crevices from which ants emerge. Repeat treatment periodically as required.

SILVERFISH

Apply the spray to the nesting and breeding places which are usually in damp locations. Give special attention to storage areas and book shelves.

CARPET BEETLE

Spray cracks and crevices around baseboards where woolen lint and dust accumulates and in which carpet beetle breed. Treat other comparable breeding places. Also spray infested floor areas and infested carpet areas. Repeat as necessary.

Net Contents: 14 ozs. Avdp.

ROACH and ANT BOMB

With Lindane and DDVP

For Control of

Roaches, Ants, Silverfish

ORB INDUSTRIES, INCORPORATED
Main & Race Sts. Upland, Pa. 19015

CAUTION: KEEP OUT OF REACH OF CHILDREN. SEE ADDITIONAL CAUTIONS ON RIGHT HAND PANEL.

CAUTION

Contents of this can are under pressure. Do not store near heat, in direct rays of sun, in closed cans in the sun or in any other location where temperatures will exceed 110 deg. F. If exposed to high temperatures excessive pressure will develop and may cause can to burst as with any aerosol bomb. Do not spray near hear or flame as spray is inflammable. Do not puncture or incinerate can.

Keep out of reach of children. Avoid contamination of foodstuffs. Do not use on humans, pets or plants. Remove pets. Cover or remove fish bowls and aquaria before spraying. Not to be used as a space spray. Avoid inhalation of spray. Avoid skin contact. May be absorbed through skin. In case of contact wash immediately with soap and water.

Harmful if swallowed, inhaled or absorbed through skin.

Do not spray in average size room more than 90 seconds continuously at one time.

Active Ingredients:

Gamma Isomer of benzene	
Hexachloride from lindane	0.5%
2,2-dichlorovinyl dimethyl phosphate	0.46%
Related compounds	0.04%
Petroleum solvent	74.0%

Inert Ingredient 25.0%
