

HERE'S WHAT IT DOES

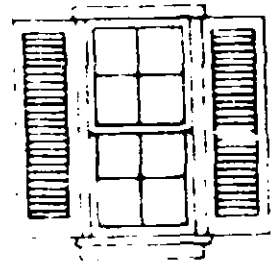

Stops rot-decay-stain

Contains PENTACHLOROPHENOL which kills rot-producing fungi. Will not evaporate or wash away. Use before painting on new wood to afford penetrating protection to the fibres of wood not normally reached by surface coating of paint.

Kills wood-destroying insects

Various kinds of insects and worms can seriously damage wood used in building construction. Most common are the termite and lyctus (powder post) beetle. This preservative provides positive, penetrating protection through soaking, brush or flood spray application.

Controls warping and swelling

Under ordinary conditions of exposure, wood to which this preservative has been applied will not pick up noticeable amounts of moisture. Thus, wood so treated has dimensional stability and the possibility of warping, swelling, or shrinking in service is greatly reduced. Windows and doors operate easily. After drying, paint or varnish may be applied to treated wood.

Paintable

Clear and non-staining. Frequently used as a prime coat, saving on paint and labor costs. May be overcoated with paint, varnish, shellac, enamel or stains.

EPA Reg. No. 4091-4

Penta Wood Preservative

Water repellent

Stops rot

Paintable

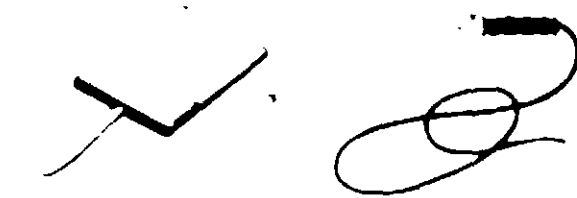

DANGER: HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN. COMBUSTIBLE. KEEP OUT OF REACH OF CHILDREN. See back panel for additional cautions.

ACTIVE INGREDIENTS:	
Pentachlorophenol	4.48%
Other chlorophenols52%
Total Active	5.0 %
INERT INGREDIENTS	95.0 %
Total	100.0 %

DIRECTIONS FOR USE

For existing wood construction use a heavy brush or flood spray application. This treatment is for control of wood rot or decay, powder post beetles, carpenter ants. Be sure to cut out and remove all unsound wood at least two feet beyond any evidence of decay.

Cutting and framing should be completed before application so that no end grain surfaces are left exposed.

Pay particular attention to the treatment of joints and exposed end grain of the wood. It is here that moisture absorption is many times greater than the flat or edge grain surfaces.

For best results the wood should be completely immersed in the preservative as it comes from this container. The more solution absorbed into the wood, the better protection will be obtained. An immersion period of 5 minutes per inch of thickness is recommended.

Allow at least 1 hour between applications. Do not paint or varnish treated wood surface until it is thoroughly dry. 24 to 48 hours drying time is usually required.

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of waste containers.

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of waste containers.

Manufacturer's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any liability to persons or property arising out of use or handling and accepts the product on these conditions.

Seal-Treat Water repellent Penta Wood Preservative

**CAUTION-COMBUSTIBLE MIXTURE
DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME**

WARNING! CONTAINS PENTACHLOROPHENOL AND PETROLEUM DISTILLATE. HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN. SKIN AND EYE IRRITANT. DO NOT BREATHE VAPOR OR SPRAY MIST. DO NOT GET IN EYES, ON SKIN, OR ON CLOTHING. USE ONLY IN WELL VENTILATED AREA. WASH THOROUGHLY AFTER HANDLING. KEEP PRESERVATIVE AND FRESHLY TREATED WOOD AWAY FROM FLAME, FOODSTUFFS AND PLANTS. DO NOT REUSE CONTAINER. DESTROY WHEN EMPTY.

WARNING! VAPORS WILL CAUSE INJURY IF ADEQUATE VENTILATION IS NOT INSURED. DO NOT USE THIS PRODUCT INDOORS OR ANY OTHER CONFINED AREAS WHERE THE VAPORS MAY CONCENTRATE AND CAUSE INJURY TO PLANT OR ANIMAL LIFE.

FIRST AID TREATMENT

IF SWALLOWED: DO NOT INDUCE VOMITING. DRINK WATER OR MILK. CALL PHYSICIAN IMMEDIATELY.
IF IRRITATED: RINSE EYES WITH WATER FOR 15 MINUTES.
IF ON SKIN: WASH WITH SOAP AND WATER.
IF ON CLOTHING: REMOVE AND DESTROY.

**KEEP CONTAINER CLOSED WHEN NOT IN USE
KEEP OUT OF REACH OF CHILDREN**
