Washington D.C. 20001

Subject: Label Amendment – To update label language and to add an Alternate Brand name “Home Armor Mold Control”
Product Name: Mitrol
EPA Registration Number: 4091-12
Application Date: December 4, 2014
Decision Number: 498083

Dear Ms. Marrapese:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The following alternate brand name have been added to the product record:
Home Armor Mold Control.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website

contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions concerning this letter, please contact Emilia Oiguenblik at (703) 347-0199 or Velma Noble at (703) 308-6233.

Sincerely,

Velma Noble
Product Manager (31)

Make the Clean Last Longer

Waterproof

Miltrol provides protection from mold and mildew staining when properly applied. Miltrol establishes a barrier between most household non-porous surfaces and bacteria and mold/mildew that cause odor, staining, and discoloration.

When you clean mold and mildew you can make the clean last longer with [Miltrol] [Mold Armor® Mold Blocker] [DampRid® Mildew & Mold Blocker]. [And, it's guaranteed effective.]

Spray Miltrol on glazed tiles, tubs, shower curtains, shower stalls, sinks, wallpaper for non-contact surfaces, window sills, cabinets, garbage cans, appliances, and vanity tops weekly to replenish barrier. Use on clothing, bedding, upholstery, and drapes. Great for roofs. Reapply every 3 months.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

CAUTION: Contents under pressure. Do not puncture or incinerate. Harmful if inhaled or absorbed through the skin. Avoid breathing vapors or spray mist. Avoid contact with eyes and skin. Wash with soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

Residential Use: This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of pesticide.

Do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Apply this product in calm weather when rain is not predicted for the next 24 hours.

FIRST AID

If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911, then give artificial respiration preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Bathroom and Non-Food Contact Kitchen Surfaces

Tubs, glazed tiles, vanity tops, shower curtains, shower stalls (areas), sinks, washable walls, wall paper for non-food contact, floors, window sills, cabinets, garbage cans, exteriors of appliances, refrigerator exteriors, fiberglass, Formica, glazed porcelain, synthetic marble, plastic vinyl.

SPRAY: Shake well. Using trigger pump sprayer, spray entire surface area 4"-6" from the surface making sure the surface is completely covered. Let stand until dry or let stand for 3 minutes and wipe dry with clean cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

Linens, Draperies, Fabric and Apparel

Bed sheets, blankets, bedspreads, curtains, draperies (washable only), underwear, socks, intimate apparel, hosiery, throw rugs, toweling, toilet tank covers, shower curtains, shoe insoles, outerwear apparel (jackets, sweaters, sweatshirts, coats, raincoats, overcoats, jerseys, ponchos), and fabrics made out of acetates, acrylics, cotton, fiberglass, linen, Lycra, nylon, orlon, polyester, polyethylene, polypropylene, rayon, silk, spandex, vinyl, and wool.

SPRAY: Clean surface prior to application. Shake well. Using trigger pump sprayer, spray entire surface area 4" -6" from the surface making sure the surface is completely covered. Let stand until dry or let stand for 3 minutes and wipe dry with clean cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and colorfastness of fabric by treating and drying a small concealed area prior to application. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

Roofing Materials (such as shingles, roofing granules, wood shakes, felt, stone, synthetic overcoats), air filters and filter material for furnaces, air conditioners, air purification systems, automobiles, recirculating air handling systems, vacuum cleaner filters, and aquariums.

SPRAY: Make sure roof is clean prior to application. When treating filters, remove filter from unit. Shake well. Using trigger pump sprayer, spray entire surface area 4"-6" from the surface making sure the surface is completely covered. Let stand until dry. If spotting occurs, wipe with moist cloth or sponge. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

Carpet

SPRAY: Apply to clean carpet. Shake well. Using trigger pump sprayer, spray entire surface area 4"-6" from the surface making sure the surface is completely covered. For rotary jet extraction cleaners and carpet steamers, add product directly to cleaning tank,

7/8

MASTER LABEL

then operate the equipment in accordance with manufacturer's instructions. Apply and then let stand until dry. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabric by treating and drying a small concealed area prior to application. Miltrol treats approximately 200 sq. feet per gallon. When treating coarser substrates (e.g., wool carpeting), more Miltrol may be required due to absorption. Dry carpet areas and surfaces before re-entry. A fan may be used to assist in drying carpeting. Remove children and pets from treated area until completely dried. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

Bedding, Upholstery/Furniture (Indoor/Outdoor)

Mattress pad and mattress ticking and upholstery composed of acetates, acrylics, cotton, fiberglass, nylon, polyethylene, polyolefins, polypropylene, rayon, silk, spandex, vinyl, wool, and fiberfill to be used in upholstery; sleeping bags, apparel where the fiber is cotton, natural down, nylon, rayon, or wool.

SPRAY: Clean surface prior to application. Shake well. Using trigger pump sprayer, spray entire surface area 4"-6" from the surface making sure the surface is completely covered. Let stand until dry. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabric by treating and drying a small concealed area prior to application. When applying to mattress pads and ticking do not soak. Remove children and pets from treated area until completely dried. If necessary, reapply every three months or when odor, staining, and discoloration due to bacteria, mold stains, or mildew stains return.

STORAGE AND DISPOSAL

Storage: Contents under pressure. Do not puncture or incinerate. Do not expose to heat or store at temperatures above 120°F. Protect product from freezing. [For use with container within a can packaging ONLY.]

Pesticide Disposal: Non-refillable container. Do not reuse this container. Offer for recycling, if available.
