

U.S. ENVIRONMENTAL PROTECTION AGENCY
 Office of Pesticide Programs
 Antimicrobials Division (7510P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

EPA Reg. Number:

4091-16

Date of Issuance:

8/31/16

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

FG1

Name and Address of Registrant (include ZIP Code):

Tony Herber
 Agent for W.M. Barr and Company, Inc.
 Scientific & Regulatory Consultants, Inc.
 201 W. Van Buren Street
 Columbia City, IN 46725

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Antimicrobials Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(C). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Demson Fuller, Product Manager 32
 Regulatory Management Branch II
 Antimicrobials Division (7510P)
 Office of Pesticide Programs

Date:

8/31/16

2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.
3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 4091-16.”
4. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/23/2015
- Alternate CSF #1 dated 12/23/2015
- Alternate CSF #2 dated 12/23/2015

If you have any questions, please contact Srinivas Gowda by phone at 703-308-6354, or via email at gowda.srinivas@epa.gov.

Sincerely,

Demson Fuller, Product Manager 32

{OPTIONAL MARKETING LANGUAGE}

FG1 eliminates excess moisture in the air and prevents damage caused by moisture. FG1 also eliminates the unpleasant, musty odor caused by mildew growth and acts as a [fungistatic] [and] [mildewstatic] agent for aesthetic purposes only. [FG1] [It] won't dry the air excessively to damage plants, furniture, or household goods. FG1 can be used in {see list of optional use sites, below } or anywhere that excess moisture and [stale] [stagnant] air are a problem/nuisance.

And our exclusive Moisture-Lock[®] technology combines a spill resistant safety cover and a natural absorbent media in the bottom of the pail to resist spills.

Great for {see list of optional use sites, below}.

FG1 Hanging Moisture Absorber eliminates excess moisture that can cause damp-feeling fabrics and even damage your clothes and leather goods. FG1 also eliminates the unpleasant, musty odor caused by mildew growth, [and acts as a [fungistatic] [and] [mildewstatic] agent for aesthetic purposes only] [and leaves a light, pleasurable scent in its place.]

FG1 Hanging Moisture Absorber is so effective at removing moisture, it's patented.

FG1 Moisture Absorbers eliminate excess moisture in the air and musty odors caused by mildew growth, [and acts as a [fungistatic] [and] [mildewstatic] agent for aesthetic purposes only] and creates fresher, cleaner air! FG1 eliminates musty air. The Refillable Moisture Absorber can be used in any room in the house, in {see list of optional use sites below } and anywhere else excess moisture and [stale] [stagnant] air are a nuisance.

For use in any refillable moisture absorbing container**

**Follow manufacturer's instruction

[FG1 Easy-Fill[®] System Large Room Absorber][FG1 Any Room Moisture Absorber] eliminates musty odors caused by mildew growth and eliminates excess moisture occasionally found in [stale] [stagnant] air [and acts as a [fungistatic] [and] [mildewstatic] agent for aesthetic purposes only]. It is convenient and quick to refill using 2 Easy-Fill[®] 10.5 oz Refill Packs. It is tip and spill resistant. Use in {see list of optional use sites below } and enclosed spaces where excess moisture and [stale] [stagnant] air are a problem.

Empties easily, like a pitcher.

Neat & easy to dispose & refill.

Locking lid reduces potential exposure to children & pets.

Locking lid to prevent inadvertent exposures and releases.

Spill resistant lower chamber traps moisture.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye and skin irritation. Harmful if swallowed, absorbed through the skin or inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wear eye protection, gloves, long sleeve shirt, and pants when handling product outside of its container. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. **KEEP OUT OF REACH OF CHILDREN.**

FIRST AID

If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for further treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

{All text in braces {xxx} is administrative communication & will not appear on a printed label.}

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FG1 efficiently removes moisture from the air. It works most efficiently in closed areas and places that remain that way for long periods of time such as closets, cabinets, storage containers and cabinets, pantries, coolers, and vehicles in storage. The effectiveness of FG1 will be compromised in well ventilated spaces. Do not use this product in moving vehicles.

{Hanging Moisture Absorbers:}

[Remove from carton and discard clear plastic wrapper. Unfold and hang with enough space to allow air circulation. Replace when all the white crystals have dissolved.]

{Disposable Moisture Absorber:}

[Remove lid and peel off foil cover leaving white safety cover in place. Replace grill lid. Place on a flat surface in the desired location. Crystals will harden and dissolve in up to 45 days.]

{Refillable Moisture Absorbers and Moisture Absorber Refill:}

[Remove lid. Open bag by tearing or cutting. Pour crystals into canister. Replace lid. Place on a flat surface in the desired location. Crystals will harden and dissolve as they absorb moisture.]

{or}

[Open refill bag by tearing or cutting. Shake refill bag while holding closed before pouring. Pour crystals into refillable container filling 1" from top. Reclose bag.]

{Hi-Capacity Moisture Absorber:}

[Remove lid to activate product. Leave safety cover in place. Place on a flat surface in the desired location. The Calcium Chloride crystals will harden and then dissolve as they remove moisture from the air.]

{Easy Fill System:}

[Remove label and release safety latch to open lid. Press side panels to remove top. Remove clear wrapper and place unwrapped packs into upper chamber. Close top with lid open. Press or Push point to close lid. Place product on a flat stable surface.]

{MASTER LABEL}

{All text in brackets [xxx] is optional & may or may not be included on a printed label.}

{All text in braces {xxx} is administrative communication & will not appear on a printed label.}

STORAGE AND DISPOSAL:

Store at room temperature. Do not puncture or remove calcium chloride crystals from containers or packaging except to refill container.

Refillable container. During use and over time the FG1 crystals will dissolve and leave water/brine/liquid in the bottom of the container. When the liquid reaches the full line, open the lid of the container and pour the liquid into the toilet. Remove the top of the container, remove the used packs, discard the used packs in the trash and [replace][refill] with [fresh][new] refill packs (see Directions For Use, above). Rinse the drain port before refilling to reduce the potential for clogging.

Non-refillable containers and hanging bags: Do not reuse these containers. Do not recycle. When all the white crystals are dissolved, discard upright in trash.

In case of spills caused by puncture or damage to the product or container:

Hard surfaces - Wipe up spill with a damp towel. Discard spilled crystals in toilet. Wash towel before reusing.

Carpets - Dry spill as much as possible with a damp towel. Wet spill with cool water and press dry with a dry towel. Repeating as necessary to removed spilled crystals. Discard spill crystals in toilet. Wash towel before reusing.

Do not allow collected liquid to contact leather or metal.

Ice-like crystals that may form in the collection chamber or bag should not be disturbed.

Do not remove liquid from container except to dispose of as directed.
