

OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

November 13, 2025

Tony Herber
Agent
W.M. Barr & Company, Inc.
Electronic Transmittal: therber@srcconsultants.com

Subject: PRIA Label Amendment – Adding organism
Product Name: Emu
EPA Registration Number: 4091-26
Received Date: 3/21/25
Action Case Number: 00651142

Dear Tony Herber:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6), you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the

website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Carlos Corona via email at Corona.Carlos@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Luisa C. Samalot-Freire", enclosed within a faint, light blue oval border.

Luisa C. Samalot-Freire, Product Manager (31)
Regulatory Management Branch I
Antimicrobials Division (7510M)
Office of Pesticide Programs
U.S. Environmental Protection Agency

[Bracketed text] is optional; text in {braces} is informational to the reviewer.

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID: If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For general information on product use, call the National Pesticides Information Center at 1-800-858-7378. For emergencies, call the poison control center at 1-800-222-1222.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. [Read and follow all directions and precautions on this product label.] Not for use on food contact surfaces.

[Can be used on] [For use on] {Insert hard non-porous surfaces from Table 1 and/or 3} [and many similar [household] [commercial] [industrial] [institutional] [business] [professional] surfaces.]

{Note to reviewer: The following directions may be used interchangeably depending on product format.}

{For products intended to be sold as a pre-filled trigger sprayer use the following operational direction.}

To Operate: Turn nozzle to preferred usage.

{For use with a pump-up or backpack sprayer use the following operational direction.}

To use: Fill a [clean] [and] [dry] tank sprayer with this product and spray with [wand] [applicator] 6-8" from surface. [Do not dilute.]

[Refill only with this product]

Alternate for Refill Bottle: To Refill [Spray Bottles]:

[Remove] 1. Remove trigger sprayer -or- cap [from empty bottle]

[Pour] 2. Unscrew cap on refill and pour contents directly into empty bottle.

[Use] 3. Replace trigger sprayer [and use as you normally would].

-or-

[Remove trigger sprayer from empty bottle,] unscrew cap and transfer your trigger to this bottle

To refill [spray bottle]: Turn trigger on spray bottle [1/4 turn] counterclockwise [and pull upward[s]] to remove. [After refilling spray bottle,] Replace trigger by aligning [red [tip]] tube on trigger with -or- to small [opening] [-or- tube] inside bottle [while pushing down] [-and/or- push [sprayer] [straight] down [to close] [until it clicks] [-and/or- locks into place]].
-or-

To refill [spray bottle]: Twist trigger [on spray bottle] [1/4 turn] [-or- counterclockwise] [and pull up -or- upward[s]] [to remove]. [Fill spray bottle] [with refill solution.] [After refilling spray bottle,] [to replace trigger,] Align [red tip[ped]] tube on trigger [head] over [small] -or- tube opening -or- tube [on] [the] inside [of the bottle]. [[Note that] trigger [head] should point in [the] same direction as [the] tube [running] on the outer edge of the bottle.] [Press] [straight] down on the trigger [head], [applying even pressure] [until it clicks -and/or- locks] [into place].

TO CLEAN: Spray on surface(s), allow to penetrate [soil or stain]. Wipe clean with a [damp] cloth [or sponge] [or paper towel].

To DEODORIZE: Spray on surfaces as needed. [Wipe or allow to air dry]

[Not recommended for use on]-or[do not use on]-or- [not for use on] [cultured] [sealed] [or] [bare] marble [surfaces] [unfinished, oiled, or waxed wood surfaces], [wool], [silk], [mirrors], [glass].[For other surfaces, test in an inconspicuous area.] [Test on an inconspicuous area for colorfastness.]

Safe for use on [these] surface materials:

[plastic], [upholstery], [painted wood], [sealed wood] [painted surfaces], [washable fabric], [vinyl], [leather], [stainless steel], [aluminum], [glazed porcelain], [glazed ceramic], {insert surface material from Table 1}

[Sanitizing] [Directions]

To Sanitize: Hold container 6"-8" from surface and spray until thoroughly wet. For use on hard, nonporous nonfood contact surfaces. Preclean visibly soiled surfaces. Allow surface to remain visibly wet for 10 seconds. Wipe clean with a [damp] cloth [or sponge] [or paper towel]. [Kills [effective against] [99.9% of] {Insert non-food contact sanitization bacteria from Table B}.]

[Disinfecting] [Directions]

TO DISINFECT: Hard, non-porous surfaces: Hold container 6"-8" from surface and spray until thoroughly wet.

{one of the following statements will be used:}

[To kill] Bacteria and Cold and Flu Viruses⁷: Allow surface to remain visibly wet for 60 seconds [-or- 1 minute] {or}

[To kill] Bacteria, Viruses[†], [and] Fungi [and mold & mildew]: Let stand for 5 minutes.

{in conjunction with:}

Then wipe with a [damp] cloth [or sponge][or paper towel]. Preclean visibly soiled surfaces. [Kills] [effective against] [99.9% of] {Insert appropriate disinfection bacteria, viruses and/or fungi from Table A based on 1 or 5 minute contact time.}

{Alternate disinfection directions}

To disinfect, deodorize, and kill mold and mildew on hard non-porous surfaces:

Preclean visibly soiled surfaces. Apply product by spraying 6-8 inches from surface and allow to remain visibly wet for [at least] 5 minutes. Allow treated surfaces to air dry [or wipe with a [damp] [cloth] [or sponge] [or paper towel]]. [Effective against {Insert disinfection bacteria and fungi from Table A}.]

{Alternate disinfection directions}

FLOOD, DISASTER, AND SMOKE DAMAGE RESTORATION:

To Clean: During mitigation, remove non-salvageable items and use product to preclean surface and remove visible soil.

Dry affected area to remove excess moisture. Reapply product as described below:

To disinfect against -or- [kill] bacteria [, viruses[†],] and mold and mildew on hard, non-porous surfaces: Apply product to affected area by spraying 6-8" from surface ensuring visible wetness for at least 5 minutes, then let dry [or wipe with a [damp] [cloth] [or sponge] [or paper towel]]. [Effective against {Insert disinfection bacteria, virus(es) and fungi from Table A}.]

[Bracketed text] is optional; text in {braces} is informational to the reviewer.

{Mildew Fungistatic Directions}

TO PREVENT MOLD [AND MILDEW] [growth][on hard] [and] [soft] [surfaces]: {note to reviewer: soft or hard surface will be selected on product label based on applicable use paragraph below}

[Fabric Mildewstat] On [cotton and polyester] Fabrics:

[To inhibit mold and mildew growth]: Apply to fabric surface until wet [do not saturate]. Allow to air dry.

Repeat [application] every 28 days to inhibit mold [and mildew] growth. [Effective against *Aspergillus niger* [mildew] and *Penicillium variable*.] Pre-clean visibly soiled surfaces.

[Hard Surface Mildewstat] On hard surfaces:

[To inhibit mold and mildew growth]: Thoroughly wet surface. Allow to air dry. Repeat [application] every 7 days to inhibit mold [and mildew] growth. [Effective against *Aspergillus niger* [mildew]] Pre-clean visibly soiled surfaces.

{alternate mildew fungistatic directions}

[To inhibit mold and mildew growth on hard and soft surfaces:] Thoroughly wet surface. Allow to air dry. For hard surfaces, reapply weekly or as needed when mildew growth reappears. For soft surfaces, repeat application every 28 days to inhibit mold and mildew growth on soft surfaces. [Effective against *Aspergillus* (A.) *niger* (mildew) on hard and soft surfaces and *Penicillium* (P.) *variable* on soft surfaces.]

{These directions will only appear on labels when a bloodborne pathogen is listed}

Special Instructions for Use against HIV-1, HBV, and HCV:

This product kills HIV-1, HBV, and HCV on precleaned hard, nonporous surfaces/objects previously soiled with blood/body fluids in healthcare settings or other settings in which there is an expected likelihood of soiling of hard, nonporous surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus (HIV-1) (associated with AIDS), Human Hepatitis B virus (HBV), and Human Hepatitis C virus (HCV).

Special instructions for using this product to clean and decontaminate against HIV-1, HBV, and HCV on surfaces/objects soiled with blood/body fluids:

Personal Protection: When handling items soiled with blood or body fluids, use disposable impervious gloves, gowns, masks, and eye coverings. **Cleaning procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and other objects before applying this product. **Contact time:** Allow surface/object to remain wet for 1 minute for HIV-1, HBV, HCV. **Disposal of Infectious Materials:** Use disposable impervious gloves, gowns, masks, and eye coverings. Blood and body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

{The following will appear on the label only if medical devices or medical equipment surfaces are listed}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

[Bracketed text] is optional; text in {braces} is informational to the reviewer.

{Storage and Disposal: Residential Containers}

STORAGE AND DISPOSAL:

{Nonrefillable containers}

Store out of reach of children or persons unfamiliar with its use. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash.

{For bottles intended to be refilled by the consumer}

Store out of reach of children or persons unfamiliar with its use. Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer for recycling if available or place in trash.

{Storage and Disposal: Institutional/Commercial Containers}

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store out of reach of children or persons unfamiliar with its use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

{For Nonrefillable containers}

Non-refillable container. Do not reuse or refill this container. Offer for recycling if available or place in trash

{or for bottles intended to be refilled by the end-user}

Do not reuse or refill this container except as described in the directions for use. Refill only with this product. [If not refilling] Offer for recycling if available or place in trash.

[after a flood] [after a hurricane]

An effective post-flood mildewstat

{Hard Surface Mildewstat Claims}

Prevents [mold and [&] mildew growth]

Mildewstat[fungistat]

Controls [Inhibits][Prevents] the growth of mold [and] [mildew] for [up to] 7 days on hard surfaces

Controls[Inhibits][Prevents] the growth of [mold spores][mold & mildew spores] [for [up to] 7 days on hard
[bathroom][or kitchen] [or household] [commercial] [industrial] [institutional] [business] [professional] surfaces

Controls [Inhibits][Prevents] the growth of mold [and] [mildew] for [up to] 7 days on {Insert one or more of the items in Table 3}

Inhibits growth of mold [& mildew] for 7 days

Prevents [mold and mildew growth] [for [up to] 7 days]

7-day mold & mildew protection

Stops mold & mildew growth for 7 days

Inhibits mold & mildew [growth] for 7 days

{Emerging Viral Pathogens}

{This product qualifies for emerging viral pathogen claims per the EPA's 'Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels' when used in accordance with the appropriate use directions indicated below.

The statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.}

<i>For an emerging viral pathogen that is a/an...</i>	<i>...follow the directions for use for the following organisms on the label:</i>
Enveloped virus	Rotavirus [Strain WA]

This product [-or- Product Name] has demonstrated effectiveness against viruses similar to {Insert name of emerging virus} on hard, nonporous surfaces. Therefore, this product [-or-Product Name] can be used against {Insert name of emerging virus} when used in accordance with the directions for use against {Insert name of supporting virus} on hard, nonporous surfaces. Refer to the CDC -or- OIE website at {Insert pathogen-specific website address} for additional information.

{Insert name of illness/outbreak} is caused by {Insert name of emerging virus}. This product [-or-Insert Name] kills similar viruses and therefore can be used against {Insert name of emerging virus} when used in accordance with the directions for use against {Insert name of supporting virus} on hard, nonporous surfaces. Refer to the {CDC -or- OIE} website at {Insert pathogen-specific website address} for additional information.

Floor	Gyms (gym equipment, handles, weights)	Escalators	Elevator Buttons
Cabinets (kitchen, bath)	Sports equipment	Toys	Mailbox
Razor[s] [Trimmer] [Blades]	Exterior surfaces of Toilets		

{For product labels with medical devices listed on the label, the following statement will be used:}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream, or normally sterile areas of the body, or (2) contacts intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

{For product labels with veterinary/farm/animal care use sites, the following statement will be used:}

Use to disinfect and clean hard, nonporous surfaces such as feeding and watering equipment, cages, utensils, instruments, kennels, stables, catteries, etc. Remove all animals and feed from premises, animal transportation vehicles, crates, etc. Remove all litter, droppings, and manure from walls, floors, and surfaces of facilities occupied or traversed by animals. Empty all feeding and watering equipment. Pre-clean all surfaces with soap or detergent and rinse with water. Spray surface until completely wet and let stand for one (1) minute for bacteria and [and 5 minutes for Rotavirus]. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treated surfaces have been thoroughly rinsed with water and allowed to dry. Thoroughly scrub all treating, feeding, and watering appliances with soap or detergent, and rinse with potable water before re-use.
