DIRECTIONS FOR USE ON COTTON

For the control of early season insects (aphids, black cutworms, leaf-
hoppers, leafminers, thrips, whiteflies and mites) and seedling disease
(e.g. Rhizoctonia, Pythium and Fusarium on cotton, use 15 pounds
per 4" high row spacing or 18 ozs. per 1,000 ft. of row (for any
row spacing). Distribute evenly in the furrow at planting time.

DANGER

RAPIDLY ABSORBED THROUGH SKIN
PROGRESSIVELY INCREASES TOXICITY

**DANGER
POISON**

**KEEP AWAY
FROM
CHILDREN**
