

This product is a cleaner, disinfectant, and sanitizer designed for general household and light industrial cleaning. For use on walls, floors and similar inanimate hard surfaces. When used as directed it will also deodorize those areas which generally are hard to keep fresh smelling, such as GARBAGE PAILS, SINK TOPS AND BATH ROOM AREAS which are prone to odors caused by the growth of some micro-organisms. Effective against Staphylococcus aureus and Salmonella choleraesuis at 2 ounces per gallon. Also effective against pathogenic fungi, Trichophyton interdigitale, at this use dilution.

For Hospital Areas, use 3 ounces of product per gallon of water. Use solution is effective against Pseudomonas aeruginosa.

When used for sanitization of food processing equipment and food contact items, limit the active quaternary to 200 ppm. At this level, Potable Water Rinse is required.

USE DIRECTIONS:

Use at 2 ounces per gallon. This product will provide 500 ppm quaternary to the use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

If a pseudomonicidal product is needed, then 3 ounces per gallon will be required.

For heavy soil, a precleaning step is recommended before using.

For best results, use with a cloth or mop and apply to walls, floors and other hard surfaces. If used to sanitize food contact items, limit the level of active quaternary to 200 ppm (4 ounces per 5 gallons). Potable Water Rinse is required.

Rinse empty container thoroughly with water and discard.

ACTIVE INGREDIENTS:

- n-Alkyl (30% C₁₄, 30% C₁₆, 5% C₁₂, 35% C₁₈) dimethyl benzyl ammonium chlorides 1.6%
- n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides 1.6%
- Sodium Carbonate 3.0%

PHENOL COEFFICIENTS:

Guaranteed	Minimum
S. aureus	30
S. typhosa	19

DANGER

Keep Out of Reach of Children. Causes severe eye and skin damage.

Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
