

#### Sanitizing of Food Processing Equipment and Utensils in Food Contact Locations

For sanitizing food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard non-porous surfaces. **No Potable water rinse is required.**

Wash all articles thoroughly, then apply 1 oz of SANIBET 512 in 4 gallons of water (150 ppm active chlorine). Article should remain wet for at least one minute followed by rinsing, draining and air drying. Fresh solution should be prepared daily. When use solution becomes visibly dirty, formulate a new solution; use solution may not be reused for sanitizing purposes.

Apply to sink tops, countertops, refrigerated storage and display equipment and other stationary hard non-porous surfaces, either by cloth or brush. **No Potable water rinse is required.**

Dishes, silverware, glasses, cooking utensils and other articles of food processing equipment can be sanitized by immersing them in a 1 oz/4 gallon dilution of SANIBET 512. **No Potable water rinse is required.**

At 1 oz/4 gallons, SANIBET 512 fulfills the criteria of Appendix E of the Grade "A" Pasteurized Milk Ordinances, 1978 Recommended Regulations of the U.S. Public Health Service. In waters up to 1000 ppm total hardness calculated as CaCO<sub>3</sub>, when evaluated by the AOAC Germicidal and Detergent Sanitizer Method against Escherichia coli and Staphylococcus aureus.

The udders, flanks, and teats of dairy cows can be sanitized by washing with a solution of 1 oz SANIBET 512 in 4 gallons of water. **No Potable water rinse is required.**

Use a fresh towel for each cow. Avoid contamination of clean towels by dirt and soil. Do not dip used towel back into sanitary solution. When solution becomes visibly dirty, discard and apply a fresh solution.

#### Precautionary Statements

#### Hazards to Humans and domestic animals

## **DANGER**

Keep out of reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

## **STORAGE AND DISPOSAL**

- DO NOT CONTAMINATE WATER FODDER OR FEED EQUIPMENT OR AGES OR DISPOSAL

OPEN DUMPING IS PROHIBITED

- DO NOT REUSE EMPTY CONTAINER

## **PESTICIDE DISPOSAL**

PESTICIDE OR RINSE THAT CANNOT BE USED OR CHEMICALLY REPROCESSED SHOULD BE DISPOSED OF IN A LANDFILL APPROVED FOR PESTICIDES OR BURIED IN A SAFE PLACE AWAY FROM WATER SUPPLIES

## **CONTAINER DISPOSAL**

TRIPLE RINSE OR EQUIVALENT AND DISPOSE IN AN INCINERATOR OR LANDFILL APPROVED FOR PESTICIDE CONTAINERS OR BURY IN A SAFE PLACE FOR HOME USE TO NOT REUSE EMPTY CONTAINER. WRAP CONTAINER AND PUT IN TRASH COLLECTION

## **GENERAL**

CONSULT FEDERAL STATE OR LOCAL DISPOSAL AUTHORITY FOR APPROVED ALTERNATIVE PROCEDURE YOUR HAZARDOUS OPEN BURNING

## **DANGER**

#### **Statement of Practical Treatment**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

#### **Directions for Use GENERAL CLASSIFICATION**

For disinfecting, sanitizing, deodorizing, and decontaminating.

For use on food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard non-porous surfaces. **No Potable water rinse is required.**

Wash all articles thoroughly, then apply 1 oz of SANIBET 512 in 4 gallons of water (150 ppm active chlorine). Article should remain wet for at least one minute followed by rinsing, draining and air drying. Fresh solution should be prepared daily. When use solution becomes visibly dirty, formulate a new solution; use solution may not be reused for sanitizing purposes.

Apply to sink tops, countertops, refrigerated storage and display equipment and other stationary hard non-porous surfaces, either by cloth or brush. **No Potable water rinse is required.**

Dishes, silverware, glasses, cooking utensils and other articles of food processing equipment can be sanitized by immersing them in a 1 oz/4 gallon dilution of SANIBET 512. **No Potable water rinse is required.**

The udders, flanks, and teats of dairy cows can be sanitized by washing with a solution of 1 oz SANIBET 512 in 4 gallons of water. **No Potable water rinse is required.**

Use a fresh towel for each cow. Avoid contamination of clean towels by dirt and soil. Do not dip used towel back into sanitary solution. When solution becomes visibly dirty, discard and apply a fresh solution.

At 1 oz/4 gallons, SANIBET 512 fulfills the criteria of Appendix E of the Grade "A" Pasteurized Milk Ordinances, 1978 Recommended Regulations of the U.S. Public Health Service. In waters up to 1000 ppm total hardness calculated as CaCO<sub>3</sub>, when evaluated by the AOAC Germicidal and Detergent Sanitizer Method against Escherichia coli and Staphylococcus aureus.

At 1 oz/4 gallons, SANIBET 512 is effective against Escherichia coli and Staphylococcus aureus. **Bioluminescence inhibition test shows 100% effectiveness at 1 oz/4 gallons.**

For use on food processing equipment, dairy equipment, food utensils, dishes, silverware, glasses, sink tops, countertops, refrigerated storage and display equipment and other hard non-porous surfaces. **No Potable water rinse is required.**

Wash all articles thoroughly, then apply 1 oz of SANIBET 512 in 4 gallons of water (150 ppm active chlorine).
