

This product is effective against a wide variety of gram positive and gram negative bacteria. It is also an excellent deodorant. It is especially effective in controlling odors that are bacterial in origin.

This product mixes readily with water and makes a clear, stable solution. The solution is non-corrosive and non-staining to plastic, vinyl, synthetic enamel, tile and most common metals. Has a pleasant lemon odor.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Keep Out of Reach of Children. Harmful if swallowed. Avoid getting on skin. In case of contact, wash thoroughly with water. Irritation possible upon direct contact. Avoid contamination with food or foodstuffs. Avoid breathing spray mist.

Rinse empty container thoroughly with water and discard.

STORAGE AND DISPOSAL

- 1. PROHIBITIONS**
Do not contaminate water, food or feed by storage or disposal. Storage and disposal prohibited.
- 2. PESTICIDE DISPOSAL**
Pesticide, spray mixture or rinsate that cannot be used in the intended application can be disposed of in a landfill approved for pesticides. Do not discharge directly into water supplies.
- 3. CONTAINER DISPOSAL**
(a) Reseal container and offer for reconditioning or recycling. Do not reuse or refill container. Offer for recycling, reconditioning or disposal in accordance with applicable regulations.
- 4. GENERAL**
Consult federal, state or local disposal authorities for appropriate disposal procedures.

BETCO LEMON
disinfectant/detergent
deodorant

*Kills Pseudomonas, Salmonella and Staphylococcus

ACTIVE INGREDIENTS:

2,2,4,4-Tetrahydroquinoline-3-one	2.00%
Ammonium hydroxide	0.25%
Water	97.75%
Total	100.00%

Approved for use on: *Staphylococcus aureus*, *Salmonella choleraesuis* ATCC 3596, *Pseudomonas aeruginosa* ATCC 27812, *Staphylococcus aureus* ATCC 29213. For use in testing by the A.O.A.C. Official Methods of Analysis, 15th Edition, 1990, Vol. 1, p. 10.1.1.1.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. For restroom and general disinfection of hard, non-porous surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel and finished wood surfaces) on walls, floors, appliances and furnishings in institutions, homes and industrial areas.

CLEANING: Whenever practical, flush away gross soils with water. For cleaning, use 2 to 8 ounces of this product per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove suspended soils with a clean water rinse, vacuum pick up or by wiping with a clean mop, sponge, squeegee or cloth.

DISINFECTING: Before disinfecting, pre-clean surfaces as directed above. Then prepare 5 ounces of this product per gallon of water and thoroughly wet the surfaces to be disinfected. (For disinfecting contagious disease areas, use 8 ounces per gallon of water.) The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clean water or wiped with a clean damp cloth. This product has not been tested for effectiveness against *Mycobacterium tuberculosis* and must not be relied upon when tuberculosis activity is intended.

For cleaning and deodorizing garbage cans, garbage trucks, industrial waste receptacles and other garbage handling equipment: It is especially important to pre-clean, preferably using a mechanical spraying device, in order for the disinfectant to perform properly. Then apply a wetted solution of 5 ounces of this product per gallon of water.

For cleaning of walls, floors and industrial work areas: Use 2 ounces per gallon of water. The use of rubber gloves is recommended for general cleaning, but not for disinfecting.

For mildew control: Use on enamel, painted tile and plastic to control mildew. Follow directions for disinfection. Repeat treatment every seven days, or when new growth appears. This product may be used through automatic floor scrubbing equipment and pressure washers. This product must not be used on food contact surfaces.

DO NOT MIX WITH OTHER PRODUCTS. STORAGE AND SERVICE INFORMATION: Store in a cool, dry place. Avoid contact with acids.
