**BETCO**

**DESCRIPTION**

This product is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant. It is especially effective in controlling odors that are bacterial in origin.

This product mixes readily with water and makes a clear, stable solution. In use solution, it is non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant lemon odor.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

Keep Out of Reach of Children. Harsh if swallowed. Avoid getting in eyes or on skin. In case of contact, wash thoroughly with water. If irritation persists, get medical attention. Avoid contamination of food or foodstuffs. Avoid breathing vapor mist.

Wash empty container thoroughly with water and discard it.

**STORAGE AND DISPOSAL**

Store in original container only. Do not contaminate water, food or feed by storage or disposal. Residue resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or purchase and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

\*This disinfectant is effective at a dilution of 1 quart, against Pseudomonas aeruginosa PRD-18, Salmonella choleraesuis ATCC 19796 and Staphylococcus aureus ATCC 6529 when tested by the A.O.A.C. Use Oxidation Test Method for powdered, suspended hard surfaces.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with the following.

For room and general disinfection of hard, non-porous surfaces (floors, walls, pipes, gutters, porcelain, fixtures, tile, linoleum, vinyl, enamel and floating wood surfaces) on walls, floors, appliances and furnishings in institutions, homes and industrial areas.

**CLEANING**-Whenever practical, wash away gross soils and grease. For cleaning, use 2 to 4 ounces of this product per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning, remove sponges and cloths with a clean water rinse, vacuum pick up or by wiping with a clean mop, sponge, squeegee or cloth.

**DISINFECTING**-Before disinfecting, pre-clean surfaces to directed state. Then, prepare 5 ounces of this product per gallon of water and thoroughly wet the surfaces to be disinfected. For disinfecting contaminated drains, use 8 ounces per gallon of water. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surface may be rinsed with clear water or wiped with a clean damp cloth. This product has not been tested for effectiveness against Mycobacterium tuberculosis and must not be relied upon when tuberculosis activity is involved.

**FOR CLEANING AND DEODORIZING GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER GARBAGE HANDLING EQUIPMENT**-It is especially important to pre-clean, preferably using a mechanical spraying device, in order for the disinfectant to perform properly. Then apply a working solution of 10 ounces of this product per gallon of water.

**FOR CLEANING OF WALLS, FLOORS AND INDUSTRIAL WORK AREAS**-Use 8 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing maximum hand cleaning.

**FOR MILDEW CONTROL**-Use on enamel, porcelain tile and plastic to control mildew. Follow directions for disinfection. Repeat treatments every seven days, or when new growth appears. This product may be used through automatic floor scrubbing equipment and pressure washers. This product should not be used on heat sensitive surfaces.
