caution of disinfectant. CONTACT TIME: Allow surface to remain wet for 10 minutes. DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal. FOR MILDEW CONTROL: Use on enamel, porcelain, tile, and plastics to control mildew. Follow directions for disinfection. Repeat treatment every seven days, or when new growth appears. This product may be used through automatic floor scrubbing equipment and pressure washers. This product must not be used on food contact surfaces.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

**PRECAUTIONARY STATEMENTS**
