practical treatment statements.

EPA EST. NO. 4170-OH-1
EPA REG. NO. 4170-39

DESCRIPTION

This disinfectant cleaner is designed for Hospital, General Industrial and Institutional use. It may be used to clean and disinfect toilet bowls, urinals, porcelain, sinks, bathtub, shower tile, and ceramic tile floors. Broad spectrum activity cleans, deodorizes and disinfects in one easy step.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER

CORROSIVE. KEEP OUT OF REACH OF CHILDREN. May be fatal or harmful if swallowed. Do not breathe the vapor or fumes. Produces chemical burns. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Use on acid resistant surfaces only.

STORAGE AND DISPOSAL

Store in original container only. Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician immediately. Drink a teaspoonful or more of milk or magnesium or cup of soapy water followed with milk of magnesia or raw egg whites. **EYE CONTACT:** Wash with water for 15 minutes. Get prompt medical attention. **SKIN CONTACT:** Wipe off acid gently, flood surface with water using soap freely, then cover with moist magnesia or baking soda.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

TO CLEAN AND DISINFECT TOILETS & URINALS: Remove water by forcing it over the trap with flush mop. Saturate bowl with disinfectant cleaner and wet all surfaces thoroughly. It is most important to scrub under the rim of bowl or urinal to clean and disinfect water outlets. Allow this disinfectant cleaner to remain for at least 10 minutes until all rust, scale, and stains are loosened. Rinse by flushing.

TO CLEAN AND DISINFECT SINKS, BATHTUBS, SHOWER STALLS, DRINKING FOUNTAINS, & CERAMIC TILE FLOORS: Dilute one part of this disinfectant cleaner with two parts water and apply to wet all surfaces thoroughly with flush mop, sponge, brush or cloth. Allow disinfectant cleaner to remain for at least 10 minutes. Rinse with water after cleaning.

FOR HEAVILY SOILED AREAS: A preliminary cleaning is required before disinfection can occur. At a dilution of one part disinfectant cleaner to two parts water, this product has shown broad spectrum activity against microorganisms commonly found in toilet bowls and urinals and has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution Test: *PSEUDOMONAS AERUGINOSA*, *STAPHYLOCOCCUS AUREUS*, *SALMONELLA CHOLERAESUIS*.

* In health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, or eye coverings.

CLEANING PROCEDURES: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product.

CONTACT TIME: Allow surfaces to remain wet for 10 minutes.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
