

THIS IS THE UPDATED VERSION AS OF 8/31/88 -JK

- High Dielectric Strength
- With Electrodes 1/10" Apart Breakdown Voltage Is Greater Than 25,000 Volts

**DIRECTIONS FOR USE**

Kills Wasps, Hornets & Yellow Jackets

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at insects wherever possible and under eaves, into nests, cracks, holes or crevices wherever insects are noticed. Spray for about 10 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

This spray is fast acting when insects are hit directly. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed.

This formulation utilizes pyrethrins, piperonyl butoxide and a carbamate type insecticide, a combination particularly effective on this class of insects.

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals

**WARNING**

Harmful to water and animals if absorbed through the skin. Avoid breathing spray mist or contact with skin. Wash thoroughly after using. Avoid storage near food or feed. Do not spray on pets, humans, or other animals.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commonly prepared or processed. Do not use in serving areas where food is exposed.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED**—Do not induce vomiting. Contains petroleum distillate. Call physician immediately. **IF INHALED**—Remove victim to fresh air. Apply artificial respiration if indicated. **IF ON SKIN**—Remove contaminated clothing and wash affected area with soap and water. **IF IN EYES**—Flush eyes with plenty of water. Call a physician immediately.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use on bare floor, spalls, or heated surfaces. Do not smoke in the use area. Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 100° F may cause bursting. Incineration of container may cause explosion.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on land or at an approved waste disposal facility. Recycle cup and drilled container in trash.
