

Mr. Gary G. Hartman
BETCO Corporation
1001 Brown Ave.
P.O. Box 3127
Toledo, OH 41607

Dear Mr. Hartman:

Subject: BETCO Indoor/Outdoor Insect Killer
EPA Registration No. 4170-43

The label modification regarding the use of detergent and a potable water rinse proposed in your letter of January 3, 1985 is acceptable. A further review of your product label indicates that the signal word **WARNING** is not consistent with the precautionary label text and must be replaced with the signal word **CAUTION** on the front panel and the side panel. Please revise your product label accordingly and submit the final printed label to the Agency.

A stamped copy of the is enclosed for your records.

If you have any questions or need further assistance regarding this matter please contact me at (703) 557-2690.

Sincerely yours,

Timothy A. Gardner
Product Manager (17)
Registration Division (TS-767)

SURNAME	<i>[Signature]</i>						
DATE	12/2/85						

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After spraying in bakeries and other food processing plants, wash with an acceptable detergent solution and then rinse with potable water all equipment, benches, shelving, etc., where exposed food will be handled. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets and birds, and cover fish aquariums before spraying.

Statement of Practical Treatment

IF SWALLOWED - Do not induce vomiting. Contains petroleum distillate. Call a physician immediately.
IF INHALED - Remove victim to fresh air. Apply artificial respiration if indicated.
IF ON SKIN - Remove contaminated clothing and wash affected area with soap and water.
IF IN EYES - Flush eyes for at least 15 minutes with plenty of water. Call a physician immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
 Extinguish all open flames before using.
1 STORAGE
 Do not store near heat or open flame.
 Store in a cool, dry place.
 Keep container closed when not in use.
2 DISPOSAL
 Do not reuse empty container.
 Wrap container and put in trash collection.
 Open dumping is prohibited.

Indoor/Outdoor Insecticide

For Control of Institutional, Industrial and Garden Insect Pests.

CONTAINS A COMBINATION OF TWO NEW HIGHLY ACTIVE SYNTHETIC PYRETHROID COMPOUNDS.

ACTIVE INGREDIENTS

* Tetramethrin	0.250%
* Related Compounds	0.034%
** Neomethrin	0.250%
* Related Compound	0.034%
Petroleum Distillates	8.900%
INERT INGREDIENTS	90.832%
	100.000%

* 1-cyclohexene-1, 2-dicarboximidomethyl 2, 2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate
 ** (5-Benzyloxy-2-furyl) methyl 2, 2-dimethyl 1, 2-methylpropenyl cyclopropanecarboxylate

KEEP OUT OF REACH OF CHILDREN WARNING

Contents under pressure. Do not use or store near heat or open flame. Exposure to temperature above 130°F may cause bursting. Never throw container into fire or incinerator.

See side panel for additional precautionary and practical treatment statements.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY. ONLY FOR SALE TO, USE, AND STORAGE BY SERVICE PERSONS.

ACCEPTED with COMMENTS to EPA Letter Docket

MAR 22 1985

Under the Federal Insecticide, Fungicide, and Herbicide Act as amended, for the pesticide registered under EPA Reg. No.

4170-43

For control of institutional and industrial insects in institutions, food processing plants, restaurants, food handling establishments, industry, schools, motels and hotels.

Flies, Mosquitoes, Gnats and Flying Moth
 Direct spray at insects, using short bursts (1 to 2 seconds) in local unoccupied areas as follows: Closets and windows. With a sweeping motion, direct spray upward to all parts of the room (1 to 10 seconds per 1000 cubic feet). Keep room closed for 15 minutes. Do not remain in treated area. Ventilate area after treatment is completed.

Wasps and Hornets. Direct spray at these insects using short bursts. Spray thoroughly into nests, hiding and breeding places when insects have settled at night.

Ants: Spray trails, nests and points of entry. Spray ants where possible. Repeat as necessary.

Beaches, Sponges, Boxelder Bugs, Centipedes, Earwigs, Crickets, Grain Mites and Spiders: Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible. Repeat as necessary.

FOR CONTROL OF PESTS ON ORNAMENTAL PLANTS. For control of aphids, two-spotted spider mites, and adult white flies on ornamental house and greenhouse plants (African violets, aralias, Christmas cherries, chrysanthemums, chlorarias, dilleniobachias, luscias, gloxinias, ivy, lantanas, Neotoma bella palms, pelonias, roses and snapdragons); on outdoor plants (azaleas, chrysanthemums, euonymus, ivy, marigolds, pelonias, roses, snapdragons and zinnias). Spray plants with a slow sweeping motion so that mist drifts into plant. Direct spray so that upper and lower leaf surfaces are contacted. Use caution on new growth and tender foliage. Repeat as necessary. When using outdoors, spray when the sun
