This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high-level disinfection.

#### PRECAUTIONARY STATEMENTS

##### Hazards to Humans and Domestic Animals **DANGER X POISON**

**CORROSIVE:** Keep out of reach of children. May be fatal or harmful if swallowed. Do not breathe vapors or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing. Do not use on sinks, bathtubs, porcelain or any surface other than toilet bowls & urinals.

##### STATEMENT OF PRACTICAL TREATMENT

**IF SWALLOWED:** Call a physician immediately. Drink a teaspoonful or more of milk of magnesia or a cup of soapy water followed with milk or raw egg whites. **EYE CONTACT:** Wash with water for 15 minutes. Get prompt medical attention. **SKIN CONTACT:** Wipe off acid gently, flood surface with water using soap freely, then cover with moist magnesia or baking soda.

##### DISPOSAL

Do not reuse empty container. Rinse container thoroughly and discard in trash.

EPA EST. NO. 4170-OH-1  
EPA REG. NO. 4170-52

This container is coded for recycling.

KEEP OUT OF REACH  
OF CHILDREN

**DANGER  
POISON**

See side panel for additional precautionary and practical treatment statements.  
**FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY**

#### DESCRIPTION

This disinfectant toilet bowl and urinal cleaner is designed for Hospital, General Industrial, and Institutional use (schools, factories, nursing homes). Its broad spectrum activity cleans, descales, deodorizes, and disinfects in one easy step.

#### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**TO CLEAN AND DISINFECT TOILET BOWLS AND URINALS:** Remove water from bowl by forcing it over the trap with a swab mop. Saturate swab mop with cleaner/disinfectant and wet all surfaces thoroughly. It is most important to swab under rim of bowl or urinal to clean and disinfect water outlets. Allow cleaner/disinfectant to remain for at least 10 minutes until all rust, scale, and stains are loosened. Rinse by flushing. For heavily soiled areas a preliminary cleaning is required.

At a dilution of one part cleaner/disinfectant to 3 parts water, this product has shown broad spectrum activity against microorganisms commonly found in toilet bowls and urinals, and has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test:

PSEUDOMONAS AERUGINOSA  
STAPHYLOCOCCUS AUREUS  
SALMONELLA CHOLERAESUIS

\*In health care settings (Hospitals, Nursing Homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS). **SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. PERSONAL PROTECTION:** When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, or eye coverings. **CLEANING PROCEDURES:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. **CONTACT TIME:** Allow surface to remain wet for 10 minutes. **DISPOSAL OF INFECTIOUS MATERIALS:** Blood and other body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.
