DESCRIPTION

This product is designed for cleaning toilet bowls, urinals, sinks, bathtubs, and shower stalls. It has limited disinfectant efficacy and will only kill odor causing bacteria. It removes scale, soap scum, and filth.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

TO CLEAN AND DISINFECT TOILETS AND URINALS: Remove water by forcing it over the trap with swab mop. Saturate swab with disinfectant cleaner and wet all surfaces thoroughly. It is most important to swab under the rim of bowl or urinal to clean and disinfect water outlets. Allow this disinfectant cleaner to remain for at least 10 minutes until all rust, scale, and stains are loosened. Rinse by flushing.

TO CLEAN AND DISINFECT SINKS, BATHTUBS, SHOWER STALLS, DRINKING FOUNTAINS, AND CERAMIC TILE FLOORS: Dilute one part of this disinfectant cleaner with two parts water and apply to wet all surfaces thoroughly with swab mop, sponge, brush, or cloth. Allow disinfectant cleaner to remain for at least 10 minutes. Rinse with water after cleaning.

FOR HEAVILY SOILED AREAS: A preliminary cleaning is required before disinfection can occur. This product disinfects against odor causing bacteria only.
