KEEP OUT OF REACH OF CHLUBREN WARNING ADVISO

ACCEPTED ACCEPTED IN EPA Letter Dated

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

4170-58

EP4 EST. NO 4170-014-1

EPA REG, NO. 4170-58

NET CONTENTS: 55 gailons

35255-00

For Bare Ground Weed Control Around: Guard Rails, Airports, Military Instal-lations, Highway Itedians, Pipelines, Raitoads, Lumberyards, Rights-of-Way, Buildings, Storage Areas, Fences, Pumps, Machinery, Fuel Tanks, Drainage Ditch Banks, Roadways, or Similar Vegetation Killer

IKF:

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This VEGETATION KILLER can be applied prior to or up to 3 months after weed emergence. Application rates vary from 1 - 4 3/4 gallons of this VEGETATION KILLER per 1,000 square feet depending on climatic conditions, soil type, the weeds present, and the stage of growth of the weeds, in the following rate recommendations, the higher rates are intended for use on heavier soils, where weed growth is heavy, and where rainfall is expected to be relatively high. The higher rates should also be used where longer residual control is desired in regions with a longer growing

For best results, apply this VEGETATION KILLER at rates recommended below prior to weed emergence or when weeds are young and actively growing.

For control of annual and susceptible perennial weeds (such as downy brome, catorass, goose grass, puncturevine, goldenrod, and plantain): Apply 1 - 1 1/4 gallons of the VEGETATION KILLER mixed in a minimum of 10 gallons of water or oil per 1,000 square feet to give thorough and uniform coverage.

For control of hard-to-kill perennial weeds and grasses (such as Johnson grass, bindweed, and wild carrot): Use 3 1/2 - 4 3/4 gallons of this VEGETATION KILLER mixed in a minimum of 20 gallons of water or oil per 1,000 square feet to give thorough and uniform coverage.

Although this YEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots, and therefore, adequate rainfall to move the chemical into the root zone is necessary.

For faster top-kill of existing vegetation, apply this VEGETATION KILLER using diesel oil, fuel oil, or weed oil instead of water. Use oils at rates of 1/4 - 1/2 gallon per 1,000 square feet (100 - 200 gallons per acre). Tall dense vegetation, such as Johnson grass, will generally require 3/8 galion per 1,000 square feet (150 gallons per acre) or more of oil for thorough coverage.

CARE MUST BE TAKEN TO KEEP THIS HERBICIDE AWAY FROM DESIRABLE FLOWER BEDS, LAWNS AND SHRUBS. DO NOT APPLY OVER ROOTS OF VALUABLE TREES OR WOODY ORNAMENTAL PLANTS. ONLY APPLY THIS HERBICIDE OUTSIDE THE DRIPLINE OF THE TREES, AVOID SPRAY DRIFT TO DESIRABLE PLANTS.

PRECAUTIONARY STATEMENTS Hazarde to Humans and Domestic Animals

WARNING

Causes substantial but temporary eye injury or skin irritation. Harmful if swallowed or absorbed through the skin. Do not get in eyes, skin, or on clothing. Prolonged or frequent repeated skin contact may cause allergic reaction in some individuals. Wear protective eyewear (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

- Take off contaminated Clothing Rines skin immediately with water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice

IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a class of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.

IF INHALED:

- Move person to freshair. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or soctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

NOTE TO PHYSICIAN: There is no specific antidote; if ingested do not induce emisis and take care to avoid aspiration of stomach contents during gastric lavage. Give a saline laxative and supportive therapy.

ENVIRONMENTAL HAZAROS

This product is toxic to fish. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water used for irrigation of domestic purposes. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. PHYSICAL DE CHEMICAL HAZARDS

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Pesticide Storage: Do not use or store near heat or open flame. Store in original container only. Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or by other procedures approved by state and local authorities.
