April 12, 1990

Until Reregistration

NAME OF PESTICIDE PRODUCT

WH/32 Wasp and Hornet Insecticide

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Betco Corporation
1001 Brown Avenue
P.O. Box 3127
Toledo, OH 53607

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 4170-77" to your label before you release the product for shipment.
3. Submit a storage stability study within 15 months of the registration date. The formulated product must be analyzed for its active ingredient at time zero and during 1 year storage in the product's commercial package at warehouse conditions of temperature and humidity.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not use as a space spray indoors.

ACCEPTED
 with COMMENTS
 to EPA Label Data

APR 12 1991

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act
 as amended, for the pesticide
 registered under EPA Reg. No.
 4170-77

To be used in and around commercial buildings, kennels, campgrounds, boats, recreational vehicles, cottages, garages, barns, patios, institutions, warehouses, theaters, office buildings, schools, motels, hotels, transformers, electrical boxes and those areas where wasps, hornets and yellow jacket nests are generally located.

To operate, remove protective cap and depress button, being sure to aim spray opening at the location to be sprayed. Direct spray at wasps, hornets and yellow jackets whenever possible and under eaves, into nests, cracks, holes or crevices wherever insects are noticed. Spray for about 1-2 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house, spray around points where outside plumbing, faucets, etc. enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills Wasps, Hornets and Yellow Jackets: This spray is fast acting when insects are hit directly. With the breeze at your back, thoroughly spray the nest until it is soaked. Allow about 24 hours for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from the places sprayed. This formulation utilizes synergized Bendiocarb, a combination specifically effective on this class of insects. Application should be made in the evening when the hornets are at rest.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place inaccessible to children and pets.

DISPOSAL: Replace cap, wrap container in several layers of newspaper and discard in trash. Do not incinerate or puncture.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger.

Do not induce vomiting in conscious person.
IF INHALED: Remove to fresh air. Apply artificial respiration if breathing is difficult.
IF IN EYES: Flush with water for 15 minutes. Contact a physician if irritation persists.
IF ON SKIN: Remove clothing. Wash affected area with soap and water. Contact a physician if irritation persists.
NOTE TO PHYSICIAN: This product is a cholinesterase inhibitor. Antidote should be given by physician if necessary until fully atrophied.

PRECAUTIONS AND HAZARDS TO HUMANS AND DOMESTIC ANIMALS

May be harmful if swallowed. Avoid contact with skin. Do not get in eyes. Avoid contact with clothing. Wash with soap and water. Avoid contact of spray with plants.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic life. Do not apply directly to water by cleaning.

PHYSICAL AND CHEMICAL PROPERTIES

Contents under pressure. Do not heat or open flame. Store in original container. Exposure to fire may cause bursting.

Buyer assumes all responsibility for use of this material not given herewith.
