USDA Reg. No. 4185-158

DIRECTIONS FOR USE

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL CAUTIONS, WARNINGS, AND DIRECTIONS.

BEANS: Mexican Bean Beetle - 34 pounds per acre. Leafhoppers - 70 pounds per acre. May be used up to harvest. Apply thoroughly at first signs of insect infestations. When necessary repeat every 7 to 10 days. Do not feed treated vines to meat or dairy animals.

GRAPES: Grape Leaf Folder - First Brood: 70 pounds per acre just before first brood larvae emerge from the first rolls. Second and Third Broods: 70 to 100 pounds per acre. May be applied up to harvest. Grape Leafhopper - 70 pounds per acre. Thorough coverage is essential. This application may be expected to control DDT-resistant leafhoppers.

POTATOES: Colorado Potato Beetle - 34 pounds per acre. Leafhopper and Flea Beetle - 70 pounds per acre. Apply when insects appear. Apply dust thoroughly to upper and lower leaf surfaces. If needed, repeat applications at 7 to 10 day intervals.

WARNING

HARMFUL IF INHALED OR SWALLOWED. Do not take internally. Avoid prolonged breathing of dust. Skin contact may be harmful. Avoid ~~all~~ contact. Wash hands before eating. Take shower or bath after work. Wear regular long-sleeved work clothing. Change to clean clothes daily. Keep away from animals.

For protection of honey bees avoid use, if possible, during periods when honey bees are visiting the crop. When necessary to use during such periods, warn beekeepers well in advance to locate hives at a safe distance until 1 week after application.

NOTE FOR PHYSICIAN: Carbaryl is a moderate, reversible, cholinesterase inhibitor. ATROPINE is antidotal.
