NUTRO

TURF FUNGICIDE

10 POUNDS NET WT.

DIRECTIONS: NUTRO Turf Fungicide effectively protects grasses from various destructive diseases. Uniform distribution of granular material is necessary for maximum control. For a preventive program, begin applications before diseases appear and repeat treatments as needed, usually at 10 to 14 day intervals, except during periods of cool, moist conditions - then apply at 7 day intervals. Application should be repeated during the spring and summer months.

NUTRO Turf Fungicide

4185-211

For control of snow mold, apply NUTRO Turf Fungicide at lower specified rate after the first killing frost in the fall. A second application should be made when the lawn is free of snow in mid-winter, and this should be followed by a third application after the final melting of snow in late winter or early spring.

RECOMMENDED APPLICATIONS

TURF DISEASE

APPLICATION RATES

Brown patch	Apply 4 to 6 pounds per 1,000 sq. ft. Where
Copper spot	infestations are known, repeat applications in
Dollar spot	7 to 10 days. Additional applications should
Leaf spot	be made throughout the spring and summer, as
Melting-out	needed.
Snow mold	

CAUTION: Harmful if swallowed or inhaled. Avoid contact with eyes, skin or clothing. Avoid breathing of dust. Wash thoroughly with soap and water after handling. Wash contaminated clothing with soap and hot water before re-use. Do not contaminate feed or foodstuffs. Keep out of the reach of children.
