\*Dimethyl tetrachloroterephthalate 3.85%

INERT INGREDIENTS: 94.23%  
Total 100.00%

\*Use as a pre-emergence herbicide patented under  
U.S. Pat. No. 2,923,634.

\*\*Equivalent to 1.27% Octachloro-4,7-  
methanotetrahydroindane and 0.65% related  
compounds.

DIRECTIONS

**For Grassy and Broad Leaf Weed Control:** This product provides excellent control of grassy and broadleaf weeds in turf and ornamental plantings. Species controlled are: Carpetweed, common chickweed, fall panicum, Florida pussley, green foxtail, lambs-quarters, lovegrass, purslane, Texas millet, witchgrass, and yellow foxtail.

**Lawn Feeding:** Nutro Crabgrass and Insect Control not only prevents crabgrass and many other weeds from germinating, but it also stimulates the growth of desirable turf grasses. A thick, well-developed turf will discourage future crabgrass and weed growth.

**Insect Control:** Nutro Crabgrass & Insect Control controls European Chafers, masked chafer grubs, green June beetle grubs, \*Japanese beetle grubs, white grubs, and ants. Apply during early spring before crabgrass seed germinates. This is usually the time when Forsythia blossoms start to fall. The contents of this package will treat and feed 2,500 sq. ft. of lawn. See spreader setting chart below.

\*For Japanese beetle grub control, apply contents of this package to 1,250 sq. ft. of lawn.

Distribute contents evenly over the area to be covered. To assure even coverage, it is recommended that one-half application be applied going back and forth across your lawn. Apply the other half in a similar manner going in the other direction (crosswise to the first application).

**IMPORTANT:** It is recommended that no reseedling be done the same season Nutro Crabgrass and Insect Control is applied. However, it is possible to reseed 60 days after application by increasing the amount of lawn seed sown by 50% to insure thrifty stands.

Nutro Crabgrass & Insect Control can be applied to newly emerged grass after it reaches a height of one to two inches.

CONDITIONS OF SALE: These Directions for Use reflect the opinion of experts based on tests of effectiveness, of toxicity to plants and laboratory animals and of residues on or in food and feed under normal conditions of use. However, because of the wide range of conditions under which this product may be used, even though label directions are followed, it is impossible to eliminate all risks associated with its use because of abnormal conditions beyond the control of the seller. The Borden Chemical Co. and the seller offer, and the buyer uses, this product subject to the understanding that the buyer assumes all such risks.

CAUTION: Do not contaminate feed or foodstuffs. Do not take internally. Avoid contact with eyes. Avoid breathing dust or spray mist. Wash after handling or using.

Do not apply to newly seeded lawn areas until after greening appears. Do not use on Dichondra lawns. Do not use on Cohansy or Toronto bents. Do not store near seed, fertilizer, or other pesticides.

This product is toxic and poisonous to fish and wildlife; birds feeding on treated areas may be killed. Do not use near any body of water.

~~Apply this product only as specified on this label. Do not apply where runoff is likely to occur.~~

WARRANTY AND LIMITATIONS OF DAMAGES. The Borden Chemical Co. warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use and Conditions of Sale; subject to the risks referred to therein. The Borden Chemical Co. makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of The Borden Chemical Co. is authorized to do so except in writing, with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
