SMITH-DOUGLASS
SABADILLA 10% DUST

ACTIVE INGREDIENTS:

Alkaloids of sabadilla seed	_____ % w/w
INERT INGREDIENTS:	_____ %
Total	_____ %

This product contains 10% sabadilla seed.

CAUTION

Avoid breathing dust.

Sabadilla 10% Dust is highly toxic to sucking plant bugs, such as squash bugs, chinch bugs, harlequin bugs, lygus bugs and leafhoppers of beans, potatoes and peas.

Sabadilla 10% Dust is effective against grape leafhopper, red-legged grasshopper and cabbage worms on susceptible vegetable crops.

DIRECTIONS FOR USE

Sabadilla 10% Dust can be used in any type of hand or power duster. Apply a light film of dust to all parts of plants, especially the underside of leaves, before insects cause damage.

Peas, Beans, Cucumbers, Squash, Muskmelons, Potatoes, Tomatoes, Cabbage, Lettuce, Eggplant and Corn.

For the control of squash bugs, chinch bugs, harlequin bugs, lygus bugs, leafhoppers and cabbage worms.
