

CAN BE USED ON AREAS WHERE PLANT LIFE IS NOT WANTED.

Mix 1 pint in 1 gallon water and apply to 40 square feet. For best results apply with a compressed air sprayer or a sprinkling can. Apply any time weeds are growing vigorously. If ground is very dry, moisten before applying. For best results water thoroughly 1 to 2 days after applying. Apply when air is quiet to avoid possibility of spray drift. If top growth is high, it is desirable to cut off this growth before applying. This product when used as directed may not control deep rooted perennials.

NOTE: Do not use under shrubs or trees or wherever shallow roots of desirable plants may be damaged. Do not apply to desirable plants or turf. Do not apply if rain is expected within 24 hours. Do not apply on slopes where heavy rainfall could wash material onto desirable vegetation. May temporarily discolor some patio surfaces. Do not store product at temperatures above 100° F. nor near fertilizers, seeds, insecticides, or fungicides. Clean equipment with detergent and water before using for other purposes.

CAUTION: May be harmful if swallowed or absorbed through the skin. Keep out of reach of children and pets. Avoid prolonged and repeated skin contact. Causes skin irritation. Avoid eye contact. Causes eye irritation. In case of contact, wash skin with soap and plenty of water; flush eyes immediately with plenty of water for at least 15 minutes and get medical attention. Wash contaminated clothing before reusing. Avoid contamination of feeds, foodstuffs, and fishponds.
